Providing for the People Robert J. Bigart, 2020-08-13 The years between 1875 and 1910 saw a revolution in the economy of the Flathead Reservation

home to the Salish and Kootenai Indians In 1875 the tribes had supported themselves through hunting especially buffalo and gathering Thirty five years later cattle herds and farming were the foundation of their economy Providing for the People tells the story of this transformation Author Robert J Bigart describes how the Salish and Kootenai tribes overcame daunting odds to maintain their independence and integrity through this dramatic transition how relying on their own initiatives and labor they managed to adjust and adapt to a new political and economic order Major changes in the Flathead Reservation economy were accompanied by the growing power of the Flathead Indian Agent Tribal members neither sought nor desired the new order of things but as Bigart makes clear they never stopped fighting to maintain their economic independence and self support The tribes did not receive general rations and did not allow the government to take control of their food supply Instead most government aid was bartered in exchange for products used in running the agency Providing for the People presents a deeply researched finely detailed account of the economic and diplomatic strategies that distinguished the Flathead Reservation Indians at a time of overwhelming and complex challenges to Native American tribes and traditions

quantities like θ , ω and α are related to one another for example if a motorcycle wheel has a large angular acceleration for a fairly long time it ends up spinning rapidly and rotates through many revolutions

these are only true if the angular acceleration is constant but if it is constant these are a convenient way to relate all these rotational motion variables and you can solve a ton of problems using these rotational kinematic formulas
