

Main Idea

Crafting
Connections

Detail

→ Worker bees tend the hive and collect food.

Detail

→ Drones mate with the queen.

Detail

→ One queen fills the hive with eggs.

Main
Idea

→ There are three types of bees in a hive, and each has an important job.

An average bee hive consists of about 20,000 bees. Within the colony, there are three types of bees each with its own important job. There is only one queen bee in the hive, and her only job is to fill the hive with eggs. A queen will lay about 1,500 eggs a day. Male bees are called drones. Their only job is to mate with the queen. Worker bees, on the other hand, are extremely busy. They are female bees that lay no eggs. They tend the hive by taking care of the babies building honeycombs, and keeping the hive cool. Some workers also leave the hive to go collect nectar and pollen.
