Pecunia, Trading is challenging for most people because they simply don't have information tools or confidence to become successful This book is important for beginners because it tells it like it is and gives an inside look at trading the financial markets giving you the reality on what the live market is really like the way they are really run and tells you who runs them and what you need to do as a self directed beginner to survive in them and trade with zero fear Let's face it it's a well known fact that 97% of brand new self directed investors and traders fail and lose all of their money why does this happen It happens because brand new self directed traders enter into this business with a bunch of misguided grandiose ideas of making a million dollars from trading and while you can surely make millions of dollars from trading you would need to be using hundreds of millions of dollars of capital to do so no joke As a brand new self directed trader you have no idea of the brutality and volatility that goes on in the live markets on a daily basis and that there are people in the live markets who will walk over dead bodies to get paid so make no mistake as a beginner and think you can go in the live market and beat them you can't What you can do though is properly prepare yourself to trade with the best traders in the world and get paid right along with them instead of paying them Once you have completed reading this entire book you will have a chance at trading with zero fear and competing with the best professional traders on the planet The information in this book will put you on the fast track to being able to make an unlimited income for yourself and becoming consistently profitable enough from trading the financial markets to perhaps even making a living from doing it isn't that the type of business you would like to be in

Day Trading IS Day Gambling Mar Ketmaker, It is huge step when you make the decision to become a day trader Most brand new self directed traders are getting into this business because they think they can make quick money and become rich beyond their dreams While that may be true it is not as easy as one thinks and certainly will not happen as soon as one thinks There are only two groups of people who are doing business in the markets the professionals and the retail investors and traders New traders have no idea they are entering a business where there are people in the live market who will walk over dead bodies to make money They are entering a business where the smart money in the business are looking to drain your trading capital account on a daily basis and most of the time they do because new people come into the business unprepared or at best under prepared as well as underfunded and have not developed a trading edge before they enter the market with real money New self directed traders prefer smaller time frames because that is what they are conditioned to think is the best way to trade Just remember the lower you go in time frame the more you are actually dramatically increasing your risk because you end up trading nothing but noise Why would you want to do that increase your risk This book is the most brutal book about day trading a beginner will ever read and has information that professional traders don't want you to know about because brand new self directed traders just entering the business are who the

professionals make all of their money from This book is meant to be encouraging and deterring at the same time for the brand new trader who is wandering wide eyed into the shark tank called the financial market and hopefully once you have read the entire book you will be frightened enough to rethink your day trading game plan for making money
