Making Good Citizens Education And Civil Society:

Making Good Citizens Diane Ravitch, Joseph P. Viteritti, 2001-01-01 Annotation In this book leading thinkers from a variety of disciplines probe the relation between a healthy democracy and education Contributors such as Jean Bethke Elshtain Nathan Glazer Robert Putnam Jack Rakove and Alan Wolfe discuss topics that range from the place of religion in public life to political conflict in a pluralist society to the problems of racial inequality *Making Good Citizens* Diane Ravitch, Joseph P. Viteritti, 2008-10-01 div Americans have reason to be concerned about the condition of American democracy at the start of the twenty first century Surveys show that civic participation has declined cynicism about government has increased and young people have a weak grasp of the principles that underlie our constitutional system Crucial questions must be answered How serious is the situation What role do schools play in shaping civic behavior Are current education reform initiatives such as multiculturalism and school choice counterproductive How can schools contribute toward reversing the trend This volume brings together leading thinkers from a variety of disciplines to probe the relation between a healthy democracy and education Their original and provocative discussions cut across a range of important topics the cultivation of democratic values the formation of social capital in schools and communities political conflict in a pluralist society the place of religion in public life the enduring problems of racial inequality Gathering together the most current research and thinking on education and civil society this is a book that deserves the attention of everyone who cares about the quality and future of American democracy DIV **Building Democracy and Civil Society East of the Elbe** Sven Eliaeson, 2006-04-18 This book explores the idea of civil society and how it is being implemented in Eastern Europe The implosion of the Russian empire fifteen years ago and the new wave of democratization opened a new field of inquiry The wide ranging debate on the transition became focused on a conceptual battle the question of how to define civil society Because totalitarian systems shun self organization real existing civil society barely existed East of the Elbe and the emergence of civil society took unusually complex and puzzling forms which varied with national culture and reflected the deep historical past of these societies This insightful text relates the concept of civil society and developments in Eastern Europe to wider sociological theories and makes international comparisons where appropriate It discusses particular aspects of civil society and examines the difficulties of establishing civil society It concludes by assessing the problems and prospects for civil society in Eastern Europe going forward **The Evolving Citizen** Jay P. Childers, 2015-06-29 It has become a common complaint among academics and community leaders that citizens today are not what they used to be Nowhere is this decline seen to be more troubling than when the focus is on young Americans Compared to the youth of past generations today's young adults so the story goes spend too much time watching television playing video games and surfing the Internet As a result American democracy is in trouble The Evolving Citizen challenges this decline thesis and argues instead that democratic engagement has not gotten worse it has simply changed Through an analysis of seven high school newspapers from 1965 to 2010 this

book shows that young people today according to what they have to say for themselves are just as enmeshed in civic and political life as the adolescents who came before them American youth remain good citizens concerned about their communities and hopeful that they can help make a difference But as *The Evolving Citizen* demonstrates today's youth understand and perform their roles as citizens differently because the world they live in has changed remarkably over the last half century

The Institutions of American Democracy Susan Fuhrman, Marvin Lazerson, 2005-05-26 From curriculum standards and testing to school choice and civic learning issues in American education are some of the most debated in the United States *The Institutions of American Democracy* a collection of essays by the nation's leading education scholars and professionals is designed to inform the debate and stimulate change In association with the Annenberg Foundation Trust at Sunnyslands and the Annenberg Public Policy Center at the University of Pennsylvania *The Institutions of American Democracy* is the first in a series of books commissioned to enhance public understanding of the nature and function of democratic institutions A national advisory board including among others Nancy Kassebaum Baker David Boren John Brademas Ellen Condliffe Lagemann David Gergen and Lee Hamilton will guide the vision of the project which includes future volumes on the press and the three branches of government Each essay in *The Institutions of American Democracy* addresses essential questions for policymakers educators and anyone committed to public education What role should public education play in a democracy How has that role changed through American history Have the schools lost sight of their responsibility to teach civics and citizenship How are current debates about education shaping the future of this democratic institution Among the contributors are William Galston Director of the Institute for Philosophy and Public Policy at the University of Maryland Clarence Stone Professor in the Department of Government and Politics at the University of Maryland College Park and editor of *Changing Urban Education and Regime Politics* Governing Atlanta 1946 1988 University Press of Kansas 1998 Susan Moore Johnson Pforzheimer Professor of Education in Learning and Teaching Harvard University Michael Johanek Executive Director of K 12 Professional Development College Board Kathy Simon co executive director of the Coalition for Essential Schools and author of *Moral Questions in the Classroom* Yale University Press 2001 and Jennifer Hochschild Professor of Government and Professor of Afro American Studies at Harvard University and author of *Facing Up to the American Dream Race Class and the Soul of the Nation* Princeton University Press 1995

Making Civics Count David E. Campbell, Meira Levinson, Frederick M. Hess, 2012-10-01 By nearly every measure Americans are less engaged in their communities and political activity than generations past So write the editors of this volume who survey the current practices and history of citizenship education in the United States They argue that the current period of creative destruction when schools are closing and opening in response to reform mandates is an ideal time to take an in depth look at how successful strategies and programs promote civic education and good citizenship *Making Civics Count* offers research based insights into what diverse students and teachers know and do as civic actors and proposes a blueprint for civic education for

a new generation that is both practical and visionary

Citizenship and Multiculturalism in Western Liberal

Democracies Leah Bradshaw, David Edward Tabachnick, 2017-03-16 This volume explores some of the tensions and pressures of citizenship in Western liberal democracies Citizenship has adopted many guises in the Western context although historically citizenship is attached only to some variant of democracy How democracy is configured is thus at the core of citizenship Beginning in ancient Greece citizenship is attached to the notion of a public sphere of deliberation open only to a small number of males Nonetheless we take from these origins an understanding of citizenship that is attached to friendship preservation of a distinct community and adherence to law These early conceptions of citizenship in the west have been dramatically altered in the modern context by the ascendancy of individual rights and equality expanding the inclusiveness of definition of citizenship The universality of rights claims has led to debate about the legitimacy of the nation state and questioning of borders A further development in our understanding of citizenship and one that has shifted citizenship studies considerably in the last few decades is the backlash against the universalism of rights in the defense of cultural recognition within democratic polities Multiculturalism as a broad spectrum of citizenship studies defends the autonomy and recognition of cultural and sometimes religious identity within an overarching scheme of rights and equality This collection draws upon the many threads of citizenship in the Western tradition to consider how all of them are still extant and contentious in contemporary liberal democracy

Citizenship

Antonino Palumbo, 2017-03-02 Interest in citizenship has never been greater Politicians of all stripes stress its importance as do church leaders captains of industry and every kind of campaigning group Yet despite this popularity the nature and even the very possibility of citizenship has never been more contested Is citizenship intrinsically linked to political participation or is it essentially a legal status Does it require membership of a state or is it only post national trans and possibly supra national Is it a universal value that should be the same for all or does it need to recognise gender and cultural differences This volume reproduces key articles on these debates from classic accounts of the historical development of citizenship to discussions of its contemporary relevance and possible forms in a globalizing world

When Mayors Take Charge Joseph P. Viteritti, 2009-10-01 Large urban school systems have been the weakest link in American education driving middle class families into the suburbs while contributing mightily to the racial learning gap Activist mayors in several major cities have responded by taking control of their public schools When Mayors Take Charge is the most up to date assessment available on this phenomenon It brings together the topic's leading experts to analyze the factors and people driving the trend its achievements and shortcomings its prospects for the future and ways to improve it Part One of the book assesses the results of mayoral control nationwide The second section details the experience in three key cities Boston and Chicago the major prototypes for mayoral control and Detroit where mayoral control ended in disaster The final section provides the first in depth examination of New York City where the law installing mayoral control sunsets in 2009 Viteritti's opening essay and postscript frame the analysis to shed light on the

significance and limitations of governance reform Contributors include Clara Hemphill formerly NewYork Newsday Jeffrey R Henig Columbia University Michael Kirst Stanford University John Portz Northeastern University Diane Ravitch NYU Wilbur C Rich Wellesley College Robert Schwartz Harvard University Dorothy Shipps Baruch College and Kenneth K Wong Brown University

Adapting to Cultural Pluralism in Urban Classrooms Namulundah Florence,2020-12-28 This book helps teachers explore the origins of differing value structures in safe forums It uses guided cross cultural exchanges to help break down prejudices and foster an appreciation of other cultures and the essence of a common humanity Acknowledging the inextricable link between cultural and structural factors in the plight of vulnerable student populations this work focuses on how to help counter prevailing disparities in perceptions and expectations within school settings Designed primarily for teacher candidates this book offers educators a forum for recognizing the impact of primary backgrounds in teaching and learning Adapting to Cultural Pluralism in Urban Classrooms focuses on four elements in the teaching learning process school climate the views and expectations of teachers in solidarity with principals and policy makers teacher interactions with students and parents and the centrality of reflection to improve practice It offers tools to support cultural adaptations that enhance the academic success of inner city students served by predominantly white and more privileged teachers

Immigrant Teachers, American Students N. Florence,2011-01-03 Teachers as often as students articulate frustrations over each other s choices and expectations A teacher s demand for respect may appear an imposition and abuse of authority to students accustomed to speaking out against perceived injustices All teachers experience some tentativeness especially in an unfamiliar environment Since classroom decisions tend to be immediate choices reflect learned attitudes and behaviors as much as logical decision making procedures Florence explores the cross cultural complexities of teacher student interactions particularly African immigrant teachers Despite the emotional aggravations cultural misunderstandings offer forums for a reassessment of views acknowledgement of differences and initiative for positive change

Civic Education in the Age of Mass Migration Angela M. Banks,2021 This important book offers a more inclusive approach to preparing students to be responsible participants in a democratic society Civic education generally operates through the lens of citizenship where students learn what good citizenship is and what good citizens do Yet the citizenship lens fails to identify the wide range of school children and their families who participate in economic political and social life Civic Education in the Age of Mass Migration examines the exclusionary aspects of citizenship and offers democratic societies an alternative approach that includes all long term residents regardless of citizenship and immigration status Banks reimagines a civic education curriculum that gives students the knowledge and

skills they will need to assist the United States in becoming a more perfect union Book Features A brief overview of the history of civic education and why citizenship status and immigration status should be explicitly addressed An examination of the economic political and social forces shaping immigration law A new way to conceptualize membership based on three principles popular sovereignty participation and the jus nexi principle Classroom activities and discussion questions to help civic educators incorporate the idea of citizenship boundaries into their curriculum *Becoming Citizens* Ross VeLure Roholt, Michael Baizerman, R. W. Hildreth, 2014-01-02 The decreasing rate of involvement in organized groups and with voting by young people is a disturbing trend that perhaps can be turned around *Becoming Citizens Deepening the Craft of Youth Civic Engagement* brings together civic education experiential education and political theory to provide a revealing multiple perspective examination of the new alternative way of practice in the youth work field called civic youth work This helpful resource bridges the theory of civic engagement with education ground both in extensive data and then discuss various youth civic engagement initiatives that battle apathy and effectively invite expanded involvement by young people This title examines three different youth civic engagement initiatives Public Achievement PA Youth in Government YIG and Youth Science Center YSC The book then discusses the initiatives from various perspectives including the academic perspectives of educational theory political theory theories of youth and vocation This unique source offers multiple points of view and is designed to enrich both the theoretical and practical for practitioners and scholars and provides a revealing and useful look at the available sources This book is a valuable resource for secondary social studies teachers school district curriculum coordinators youth workers university faculty in political theory democratic theory youth studies child and youth care recreational studies public health education and social work youth and community organizers and program directors and managers in community based youth services This book was published as a special issue of Child and Youth Services

Civic Education in the Twenty-First Century Donald M. Gooch, Michael T. Rogers, 2015-09-18 Imagine an America where politicians governmental institutions schools new technologies and interest groups work together to promote informed engaged citizens *Civic Education in the Twenty First Century* brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville's analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic education in its new and varied forms While some lament a civics crisis in America today *Civic Education in the Twenty First Century* raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With *Civic Education in the Twenty First Century* we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical

debates about civic education particularly with respect to its role in America's educational institutions. Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations. As some examples, this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement. This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry. Finally, the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them. From the virtual civics campus of Fort Hayes State to citizens' academies throughout the country, this section shows the possibilities for schools today to once again be civics actors and promoters. *Democracy's Education* Harry C.

Boyte, 2021-04-30 Today Americans feel powerless in the face of problems on every front. Such feelings are acute in higher education where educators are experiencing an avalanche of changes: cost-cutting, new technologies, and demands that higher education be narrowly geared to the needs of today's workplace. College graduates face mounting debt and uncertain job prospects and worry about a coarsening of the mass culture and the erosion of authentic human relationships. Higher education is increasingly seen and often portrays itself as a ticket to individual success, a private good, not a public one. *Democracy's Education* grows from the American Commonwealth Partnership, a year-long project to revitalize the democratic narrative of higher education that began with an invitation to Harry Boyte from the White House to put together a coalition aimed at strengthening higher education as a public good. The project was launched at the beginning of 2012 to mark the 150th anniversary of the Morrill Act, which created land-grant colleges. Beginning with an essay by Harry C. Boyte, *Reinventing Citizenship as Public Work*, which challenges educators and their partners to claim their power to shape the story of higher education and the civic careers of students, the collection brings world-famous scholars, senior government officials, and university presidents together with faculty, students, staff, community organizers, and intellectuals from across the United States and South Africa and Japan. Contributors describe many constructive responses to change already taking place in different kinds of institutions and present cutting-edge ideas like civic science, civic studies, citizen professionalism, and citizen alumni. Authors detail practical approaches to making change, from new faculty and student roles to changes in curriculum and student life and strategies for everyday citizen empowerment. Overall, the work develops a democratic story of education urgently needed to address today's challenges, from climate change to growing inequality.
