Office Gossip and Minority Employees in the South African Workplace

Nasima M. H. Carrim, 2023-07-11. This book examines how employees from marginalized communities handle office gossip and provides recommendations to corporate leaders regarding how to support their marginalized employees better. Office gossip is a phenomenon that is omnipresent in the workplace and experienced by minority employees at all levels within the organization in different ways. Gossip is felt more acutely by minority employees compared to their majority counterparts at certain occupational levels, and this book provides an empirical basis for understanding this phenomenon in organizational settings based on the experiences of marginalized workers. The chapters use a variety of research methods to examine various aspects of the experience of office gossip among marginalized employees, including perceptions of diverse groups regarding workplace gossip, workplace gossip within teams, intersectional experiences of employees from racial minority and LGBTQ communities, and foreign nationals' experiences of managers from racial minority backgrounds and experiences in specific fields such as sport and healthcare. This book is of interest to students and researchers of diversity studies, organization research, human resource management, and industrial psychology, as well as an important resource for corporate leadership and human resource and DEI departments in corporate organizations.

The Year of the Puppy

Alexandra Horowitz, 2024-05-14. What Mr. Rogers was to children, Alexandra Horowitz is to dogs: a wise and patient observer who seeks to intimately know a creature. Her chapters, packed with close observations about canine cognition and behavior, are mini mood lifters. NPR's Maureen Corrigan, on Fresh Air, asks: What is it like to be a puppy? Author of the classic *Inside of a Dog*, Alexandra Horowitz tries to find out, spending a year scrutinizing her puppy's daily existence and poring over the science of early dog development. Few of us meet our dogs at Day One. The dog who will eventually become an integral part of our family, our constant companion and best friend, is born without us into a family of her own. A puppy's critical early development into the dog we come to know is usually missed entirely. Dog researcher Alexandra Horowitz aimed to change that with her family's new pup, Quiddity. In this scientific memoir, she charts Quiddity's growth from wee grub to boisterous sprite from her birth to her first birthday. Horowitz follows Quiddity's first weeks with her mother and ten roly-poly littermates, and then each week after the puppy joins her household of three humans, two large dogs, and a wary cat. She documents the social and cognitive milestones that so many of us miss in our puppies' lives when caught up in the housetraining and behavioral training that easily overwhelms the first months of a dog's life with a new family. In focusing on training a dog to behave, we mostly miss the radical development of a puppy into themselves through the equivalent of infancy, childhood, young adolescence, and

teenager hood By slowing down to observe Quid from week to week The Year of the Puppy makes new sense of a dog's behavior in a way that is missed when the focus is only on training Horowitz keeps a lens on the puppy's point of view how they begin to see and smell the world make meaning of it and become an individual personality She's there when the puppies first open their eyes first start to recognize one another and learn about cats sheep and people she sees them from their first play bows to puberty Horowitz also draws from the ample research in the fields of dog and human development to draw analogies between a dog's first year and the growing child and to note where they diverge The Year of the Puppy is indispensable for anyone navigating their way through the frustrating amusing and ultimately delightful first year of a puppy's life
