The Columbia Guide to Asian American History Gary Y. Okihiro,2005-03-30

Offering a rich and insightful road map of Asian American history as it has evolved over more than 200 years this book marks the first systematic attempt to take stock of this field of study It examines comments and questions the changing assumptions and contexts underlying the experiences and contributions of an incredibly diverse population of Americans Arriving and settling in this nation as early as the 1790s with American born generations stretching back more than a century Asian Americans have become an integral part of the American experience this cleverly organized book marks the trajectory of that journey offering researchers invaluable information and interpretation Part 1 offers a synoptic narrative history a chronology and a set of periodizations that reflect different ways of constructing the Asian American past Part 2 presents lucid discussions of historical debates such as interpreting the anti Chinese movement of the late 1800s and the underlying causes of Japanese American internment during World War II and such emerging themes as transnationalism and women and gender issues Part 3 contains a historiographical essay and a wide ranging compilation of book film and electronic resources for further study of core themes and groups including Chinese Japanese Filipino Hmong Indian Korean Vietnamese and others

Pathologies of the West Roland Littlewood,2002 Psychiatry conventionally regards spirit possession and dramatic healing rituals in non European societies as forms of abnormality if not mental illness Roland Littlewood a psychiatrist and social anthropologist argues that it is necessary to take into account both social process and personal cultural meaning when explaining psychiatric illness and deviant behavior Littlewood brings anthropological and psychiatric literature to bear on case studies of self poisoning agoraphobia hysteria chronic fatigue syndrome post traumatic stress male sexual violence and eating disorders He contends that Western psychiatric illnesses are themselves possession states patterns by which individual agency is displaced through an idiom of alien intrusion whether of a spirit or a disease *Pathologies of the West* is simultaneously an original approach to psychiatric illness in its international perspective and an introduction to recent developments in the social anthropology of medicine It examines critically the relevance of phenomenological structural and ethological approaches to understanding extreme personal experience Littlewood argues that anthropology must not simply provide a cultural alternative to sociological critiques of medicine psychiatry itself should take into account the ways in which cultural values are acted out by individuals
