Archetype including Avatar Childhood s End Village of the Damned Powder and 2001 A Space Odyssey The Singularity Archetype is a primordial image of human evolutionary metamorphosis which emerges from the collective unconscious How the Archetype Manifests a Composite Picture A rupture of plane event occurs usually threatening the survival of the individual and or species The event is a shock that disrupts the equilibrium of body physical world and also individual collective psyche It is an ontological shock that will be viewed as the worst thing possible by individual collective ego There is another rupture of plane that may actually be the same rupture as above but seen from a cosmic rather than a personal view The shock is revealed to be a transcendent evolutionary event The revelation of the transcendent aspect will often involve spiral motifs and unusual lights Consciousness and communication metamorphose and with them core aspects ego individuality connection to linear time corporeality gender identification social order etc fundamentally transform There is a vision or actualization of release from some or all limits of corporeal incarnation and the emergence of glorified bodies which have enhanced powers and various degrees of etherialization More visual and telepathic modes of consciousness and communication emerge and this is part of a transformation of individuality into Homo gestalt a new species where individual psyches are networked telepathically The Singularity Archetype may be experienced and even actualized to various degrees by an individual through transcendent and or anomalous experiences such as near death experiences NDEs UFO abduction close encounter experiences kundalini and psychotropic episodes As with encounters with all archetypes individuals and groups attach idiosyncratic material to it such as particular end dates and scenarios Another way of defining the Singularity Archetype in its collective form is as a resonance flowing backward through time of an approaching Singularity at the end of human history The Singularity Archetype relates to both the evolutionary event horizon of the species and for the individual the event horizon of death
