Lines In The Sand Justice And The Gulf War:

Lines in the Sand Alan F. Geyer, Barbara Graham Green, 1992-01-01 Focuses on the moral issues surrounding the Persian Gulf War and examines the limits of the just war tradition for dealing with issues of war and peace *Gender, Justice, and the Wars in Iraq* Laura Sjoberg, 2006-01-01 Gender Justice and the Wars in Iraq offers a feminist critique and reconstruction of just war theory It points out gender biases in the just war tradition and suggests alternative jus ad bellum and jus in bello standards that emphasize women political marginality and empathy Laura Sjoberg applies this feminist just war theory to analyze the wars in Iraq since the end of the Cold War the First Gulf War the war of sanctions and the Second Gulf War By examining international political discourse from and about Iraq it shows where war generally and just war specifically are gendered Through the stories of key just war characters like Jessica Lynch this book reveals where women are omitted and subordinated in global politics Sjoberg suggests that dialogue and empathy replace righteousness in just war thinking for the good of human safety everywhere and concludes with alternative visions of Gulf War policies inspired by feminist just war theory *Michael Walzer on War and Justice* Brian Orend, 2001-03-01 In Michael Walzer on War and Justice Brian Orend offers the first clear and comprehensive look at Walzer's entire body of work He deals with controversial subjects from bullets blood and bombs to the distribution of money political power and health care and surveys both the national and the international fields of justice This is an important book that provides a thought provoking and critical look at some of the most pressing and controversial topics of our time *Moral Constraints on War* Bruno Coppieters, N. Fotion, 2008-01-01 This second edition of Moral Constraints on War offers a principle by principle presentation of the trans cultural roots of the ethics of war in an age defined by the increasingly international nature of military intervention Parts one and two trace the evolution of Just War Theory analyzing the principles of jus ad bellum and jus in bello the principles that determine under what conditions a war may be started and then conducted Each chapter provides a historical background of the principle under discussion an explanation of the principle and numerous historical examples of its application In Part three case studies apply the theories discussed to NATO's humanitarian mission in Kosovo terrorism and the Iraq War Bringing together an international coterie of philosophers and political scientists this accessible and practical guide offers students of military ethics and international relations rich up to the minute insight into the pluralistic character of Just War Theory *War and International Justice* Brian Orend, 2010-10-30 Can war ever be just By what right do we charge people with war crimes Can war itself be a crime What is a good peace treaty Since the Cold War ended in the early 1990s many wars have erupted inflaming such areas as the Persian Gulf Central Africa and Central Europe Brutalities committed during these conflicts have sparked new interest in the ethics of war and peace Brian Orend explores the ethics of war and peace from a Kantian perspective emphasizing human rights protection the rule of international law and a fully global concept of justice Contending that Kant's just war doctrine has not been given its due Orend displays Kant's theory to its fullest impressive

effect He then completely and clearly updates Kant's perspective for application to our time Along the way he criticizes pacifism and realism explores the nature of human rights protection during wartime and defends a theory of just war He also looks ahead to future developments in global institutional reform using cases from the Persian Gulf War Somalia Bosnia and Rwanda to illustrate his argument Controversial and timely perhaps the most important contribution War and International Justice A Kantian Perspective makes is with regard to the question of justice after war Orend offers a principled theory of war termination making an urgent plea to reform current international law **The Persian Gulf War** Alexander

Cruden,2011-05-04 This volume introduces and provides a brief overview of major factors that contributed to the Persian Gulf War in the Middle East Then it offers an in depth multinational perspective on the controversies surrounding the war the current implications and long lasting effects Essays are compiled from a variety of sources and are carefully edited and introduced to provide context for readers unfamiliar with this war The last chapter presents readers with compelling first person narratives of people who lived through the Persian Gulf War and those who were directly impacted by it **Wise as**

Serpents, Innocent as Doves Keith Graber Miller,1996 In July 1968 the Mennonite Central Committee MCC opened an office in Washington D C for monitoring the actions of the federal government's various branches Given American Mennonites long history of noninvolvement in political affairs this shift toward engagement was dramatic indeed In this in depth study Keith Graber Miller shows how the church's distinctive traditions of pacifism humility and service have informed and shaped the nature of its activities in Washington Graber Miller argues that Mennonites have both influenced the national policymaking debate and have themselves been influenced by their increasing exposure to it Wise As Serpents Innocent as Doves not only explores the twentieth century transformations among American Mennonites but illuminates the larger issues of religious lobbying in the nation's capital Graber Miller suggests that the Mennonites have helped redefine what it means to be a lobbyist Because the Mennonites numbers are too few to make them a politically significant force he argues their only credibility in Washington lies in an astute and accurate analysis of how the world is and in the integrity of their witness to the truth as they see it BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **An**

Long, 2009-08-17 From a Western

perspective the Persian Gulf War of 1990-1991 largely fulfilled the first President Bush's objective. In other words, it did it right. That's the message. But in the Arab world, the causes and consequences of Saddam Hussein's invasion of Kuwait and his subsequent defeat by a U.S.-led coalition were never so clear-cut. The potent blend of Islam and Arab nationalism that Saddam forged to justify his unjustifiable invasion of a Muslim state gained remarkable support among both Muslims and Arabs and continued to resonate in the Middle East long after the fighting ended. Indeed, as this study argues, in passing it became a significant strand in the tangled web of ideologies and actions that led to the attacks of 9/11. This landmark book offers the first in-depth investigation of how Saddam Hussein used Islam and Arab nationalism to legitimate his invasion of Kuwait in the eyes of fellow Muslims and Arabs while delegitimizing the actions of the U.S.-led coalition and its Arab members. Jerry M. Long addresses three fundamental issues: how extensively and in what specific ways Iraq appealed to Islam during the Kuwait crisis; how elites, Islamists, and the elusive Arab street both in and out of the coalition responded to that appeal; and why they responded as they did, and the longer-term effects that resulted from Saddam's strategy.

Casualty and Modern Ethics
Richard B. Miller, 1996-11. Did the Gulf War defend moral principle or Western oil interests? Is violent pornography an act of free speech or an act of violence against women? In *Casualty and Modern Ethics*, Richard B. Miller sheds new light on the potential of casuistry, case-based reasoning, for resolving these and other questions of conscience raised by the practical quandaries of modern life. Rejecting the packaging of moral experience within simple descriptions and inflexible principles, Miller argues instead for identifying and making sense of the ethically salient features of individual cases. Because this practical approach must cope with a diverse array of experiences, Miller draws on a wide variety of diagnostic tools from such fields as philosophy, science, legal reasoning, theology, literary theory, hermeneutics, and moral philosophy. Opening new avenues for practical reasoning, Miller's interdisciplinary work will challenge scholars who are interested in the intersections of ethics and political philosophy, cultural criticism, and debates about method in religion and morality.

The Morality of War
Brian Orend, 2006-06-16. Brian Orend's *The Morality of War* promises to become the single most comprehensive and important book on just war for this generation. It moves far beyond the review of the standard just war categories to deal comprehensively with the new challenges of the conflict with terrorism. It thoughtfully reviews every major military conflict of the past few decades, mining them for implications of the evolving tradition of just war thinking. It concludes with a critical engagement with the major alternatives to just war thinking: pacifism and realism. It is, in short, the most comprehensive and thoughtful assessment of all aspects of just war since Michael Walzer's classic *Just and Unjust Wars*.

Champions of the Poor
Barend A. DeVries, 1998-03-01. Barend A. de Vries, a distinguished international economist, examines the economic roots of poverty, the actions that can be taken to eradicate it, and the ethical case for integrating the poor into the mainstream of society. De Vries applies Judeo-Christian ethics, in particular the values of social justice and compassion for the poor, to the problem of poverty in both the United States and in developing countries.

Bringing together the insights of economists and ethicists he considers both the economic feasibility of religious views regarding the eradication of poverty and the ethical aspects of economic programs He analyzes the poverty of women resulting from discrimination the impact of environmental degradation on the poor the allocation of funding to military rather than social programs and the implications of the enormous debts incurred by poor countries In addressing these conditions he demonstrates the pressing need for action on both economic and ethical grounds *Champions of the Poor* offers an unbiased presentation of the ethical positions taken by Jews Catholics mainline Protestants and Evangelicals and stresses the need for all social sectors religious and secular business labor and government to work together to eradicate poverty By reassessing poverty from these seemingly disparate approaches it seeks to bring us closer to solving this age old problem

Moral Constraints on War Carl Ceulemans, Bruno Coppieters, Nicholas Fotion, 2020-01-30 This third edition of *Moral Constraints on War* offers a principle by principle presentation of the ethics of war as is found in the age old tradition of the Just War Parts one and two trace the evolution of Just War Theory analyzing the principles of *jus ad bellum* and *jus in bello* the principles that determine the conditions under which it is just to start a war and then conduct military operations Each chapter provides a historical background of the principle under discussion and an in depth analysis of its meaning More so than in the previous editions there is a special focus on the transcultural nature of the principles Besides theoretical clarifications each of the principles is also put to the test with numerous historical and contemporary examples In Part three Just War Theory is applied in three specific case studies the use of the atomic bomb against Japan in World War II the Korean War 1950-53 and the use of armed drones in the war on terror Bringing together an international coterie of philosophers and political scientists this accessible and practical guide offers both students of military ethics and of international relations rich up to date insights into the pluralistic character of Just War Theory

Orthodox Christianity and Contemporary Europe Jonathan Sutton, William Peter van den Bercken, 2003 This volume contains selected papers presented at a conference on Orthodox Christianity and its contemporary European setting The conference was held in England at the University of Leeds in June 2001 and drew together historians theologians philosophers specialists in theological education and political scientists Countries with an Orthodox Christian history were well represented as well as Orthodoxy in the diaspora and other Christian confessions by representatives from Western Europe and the United States and Canada The coherence of Orthodox Christianity and contemporary threats to its coherence formed one main strand for reflection but discussion also broadened out to consider the nature of religious tradition as such Part I of the collection brings together papers on such matters as identity nationalism globalization human rights discourse ecumenical dialogue and competing interpretations of what it means to be European Part II focuses on Orthodox Christianity in Russia and Part III on the traditionally Orthodox countries of Armenia Bulgaria Greece Romania Serbia and Ukraine The present collection is meant as a contribution to further reflection on Orthodox identity and relationship between Christianity and culture in Europe at the beginning of the twenty
