Zu Friedrich Nietzsches Fakten Psychologische Aufkl rung über einen angeblich

großen Philosophen Christian Georg, 2017-01-11 Es bringt nichts Nietzsche zu lesen als ob es sich beispielsweise bei seinem Lebensmotto *Werde der du bist* um eine allgemeinverständliche Aussage handelt Bei Nietzsche muss man sich hüten ihm aufs Wort zu glauben d.h. man darf sich nicht naiv darauf einlassen was er in allgemeinverständlich scheinende Worte packte Zu seinen oft gefährlichen Wahrheiten beruht sich selbst und die Welt so wie er sie sah muss man wissen aus welcher Veranlassung und aufgrund welcher Quellen er zu seiner jeweiligen Ansicht gekommen ist denn seine zumeist totalitär vertretene Selbstmittelpunktlichkeit hatte extreme Formulierungen nützlich deren Gültigkeit und Rechtfertigung nicht ohne Gefahr auf anders Veranlagte übertragen werden kann Dieses Buch verweist darauf wie und wo sich genauere Analysen des Nietzscheschen Philosophierens wenn man es denn so nennen will finden lassen *Cosmopolitan*, 1896 Amharic cultural reader Wolf Leslau, Thomas Leiper Kane, 2001 This collection of essays has two purposes first to give the advanced student of Amharic a sample of the Amharic writing style and secondly to provide information on Ethiopia's cultural background The texts were written by several Ethiopian university students some 40 years ago on subjects with which they were most familiar such as naming christening wedding burial ceremony food and drink the manner of wearing clothes house construction in Amhara country daily work of an Ethiopian woman landholding disputes beauty merchant mercato country market artisans elderhood priests dabtara monkhood divination Christmas Easter Addis Ababa the City of Gondar Harar City etc Although some time has passed since the collection was compiled the texts convey a good picture of Ethiopian culture Each Amharic text is given an English translation on the opposite side The book is completed by an Amharic English Dictionary of nearly 90 pages and an index of English words and Amharic lexemes **Journal of Education**, 1899

Robert Louis Stevenson in the Pacific Roslyn Jolly, 2009 Roslyn Jolly examines a crucial period 1887-1894 in Stevenson's life focusing on the self-transformation wrought in his Pacific travel writing and political texts As his geographical and cultural horizons expanded Stevenson's professional sphere also enlarged A key feature of the study is Jolly's analysis of the resistance of Victorian readers not only to the Pacific subject matter of Stevenson's later works but also to his experiments with new styles and genres New England Journal of Education Thomas Williams Bicknell, Albert Edward Winship, Anson Wood Belding, 1899 *Edgar Allan Poe and the Masses* Terence Whalen, 1999-04-25 Edgar Allan Poe has long been viewed as an artist who was hopelessly out of step with his time But as Terence Whalen shows America's most celebrated romantic outcast was in many ways the nation's most representative commercial writer Whalen explores the antebellum literary environment in which Poe worked an environment marked by economic conflict political strife and widespread foreboding over the rise of a mass audience The book shows that the publishing industry far from being a passive backdrop to writing threatened to dominate all aspects of literary creation Faced with financial hardship Poe desperately sought to escape what he called the magazine prison house and the horrid laws of political economy By placing Poe firmly in economic context Whalen unfolds a new account of the relationship between literature and capitalism in an age of

momentous social change The book combines pathbreaking historical research with innovative literary theory It includes the first fully documented account of Poe s response to American slavery and the first expos of his plot to falsify circulation figures Whalen also provides a new explanation of Poe s ambivalence toward nationalism and exploration a detailed inquiry into the conflict between cryptography and common knowledge and a general theory of Poe s experiments with new literary forms such as the detective story Finally Whalen shows how these experiments are directly linked to the dawn of the information age This book redefines Poe s place in American literature and casts new light on the emergence of a national culture before the Civil War
