It looks at how the rapid growth of Cyberology and the creation of various applications and devices have influenced human relationships. The book discusses the impact of Cyberology on the behaviour, attitudes and perceptions of users including the way they work and communicate. With a strong focus on how the Cyberology world influences and changes the methods and works of artists, this book features topics that are relevant to four key players: artists, intermediaries, policy makers and the audience in a cultural system, especially in the world of art and design. It examines the development problems and issues of traditional cultural values, identity and new trends in contemporary art. Most importantly, the book attempts to discuss the past, present and future of art and design whilst looking at some underlying issues that need to be addressed collectively.

Epistemic Fluency and Professional Education Lina Markauskaite, Peter Goodyear, 2016-09-21

This book by combining sociocultural material cognitive and embodied perspectives on human knowing offers a new and powerful conceptualisation of epistemic fluency a capacity that underpins knowledgeable professional action and innovation Using results from empirical studies of professional education programs the book sheds light on practical ways in which the development of epistemic fluency can be recognised and supported in higher education and in the transition to work The book provides a broader and deeper conception of epistemic fluency than previously available in the literature Epistemic fluency involves a set of capabilities that allow people to recognize and participate in different ways of knowing Such people

are adept at combining different kinds of specialised and context dependent knowledge and at reconfiguring their work environment to see problems and solutions anew In practical terms the book addresses the following kinds of questions What does it take to be a productive member of a multidisciplinary team working on a complex problem What enables a person to integrate different types and fields of knowledge indeed different ways of knowing in order to make some well founded decisions and take actions in the world What personal knowledge resources are entailed in analysing a problem and describing an innovative solution such that the innovation can be shared in an organization or professional community How do people get better at these things and how can teachers in higher education help students develop these valued capacities The answers to these questions are central to a thorough understanding of what it means to become an effective knowledge worker and resourceful professional
