D. , of Persia** Robert Elliott Speer, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1911 edition Excerpt XVI AS A MEDICAL MISSIONARY DR COCHRAN was primarily of course a medical missionary The general influence which he wielded was secondary It came to him and was used by him as he went about his business of opening the eyes of the unseeing restoring the lame and halt and healing the sick of their diseases The story of his life as it has been told has been necessarily filled with incidents of his medical work but something should be said in a more connected way of what he did and how he worked as a physician The centre of his medical work was the hospital The first building was erected in 1880 A mile or two from the city of Urumia on the banks of the river of the same name the Mission had purchased fifteen acres of land Four acres of this were enclosed Persian fashion by a wall fifteen feet high It was a beautiful garden with streams of water running through it Avenues lined with sycamore pear and poplar trees divided it into four squares and filled it with pleasant shade On one of these squares wrote Dr Cochran in one of his reports the hospital is built on another the college and on the remaining two the residences of the superintendent of the college and of the physicians The building is seventy five feet by thirty five faced with red brick and two stories and a half high Aside from accommodations for the sick it has drug rooms operating and assistants rooms and storerooms It has two large wards and six smaller wards The large wards have sixty beds the smaller from three to six The beds are of straw on high wooden bedsteads and are furnished with sheets and quilts made in the native style i e of wool with a covering of bright calico The windows are curtained with gay calico pictures      *Heroes to Hostages* Firoozeh Kashani-Sabet, 2023-08-24 It is easy to forget given the oppositional dynamic between Iran and the United States of the last 50 years that these two countries once shared productive partnership Tracing US Iran relations over two turbulent centuries

Firoozeh Kashani Sabet considers when and how this relationship went awry With careful attention to social and cultural as well as diplomatic developments Kashani Sabet shows that the rift did not originate in flashpoints of crisis like the 1953 coup or the 1979 Islamic Revolution but was instead long in the making Drawing from a wealth of English and Persian language sources many of which were previously unavailable or unacknowledged this book considers the relationship from the vantage point of Iranian society and the experiences of an evolving Iran that strived to accommodate American and great power politics Following these two nations through wars decolonization and revolution Kashani Sabet presents an invaluable history of a diplomatic rivalry that informs geopolitics to this day

**Nomadism in Iran** D. T. Potts, 2014-03-03 The classic images of Iranian nomads in circulation today and in years past suggest that Western awareness of nomadism is a phenomenon of considerable antiquity Though nomadism has certainly been a key feature of Iranian history it has not been in the way most modern archaeologists have envisaged it Nomadism in Iran recasts our understanding of this timeless tradition Far from constituting a natural adaptation on the Iranian Plateau nomadism is a comparatively late introduction which can only be understood within the context of certain political circumstances Since the early Holocene most if not all agricultural communities in Iran had kept herds of sheep and goat but the communities themselves were sedentary only a few of their members were required to move with the herds seasonally Though the arrival of Iranian speaking groups attested in written sources beginning in the time of Herodotus began to change the demography of the plateau it wasn't until later in the eleventh century that an influx of Turkic speaking Oghuz nomadic groups true nomads of the steppe began the modification of the demography of the Iranian Plateau that accelerated with the Mongol conquest The massive unprecedented violence of this invasion effected the widespread distribution of largely Turkic speaking nomadic groups across Iran Thus what has been interpreted in the past as an enduring pattern of nomadic land use is by archaeological standards very recent Iran's demographic profile since the eleventh century AD and more particularly in the nineteenth and twentieth century has been used by some scholars as a proxy for ancient social organization Nomadism in Iran argues that this modernist perspective distorts the historical reality of the land Assembling a wealth of material in several languages and disciplines Nomadism in Iran will be invaluable to archaeologists anthropologists and historians of the Middle East and Central Asia

*Iran and the West* Margaux Whiskin, David Bagot, 2018-04-27 Since the age of the Sasanian Empire 224 651 AD Iran and the West have time and again appeared to be at odds Iran and the West charts this contentious and complex relationship by examining the myriad ways the two have perceived each other from antiquity to today Across disciplines perspectives and periods contributors consider literary imagined mythical visual filmic political and historical representations of the other and the ways in which these have been constructed in and often in spite of their specific historical contexts Many of these narratives for example have their origin in the ancient world but have since been altered recycled and manipulated to fit a particular agenda Ranging from Tacitus Leonidas and Xerxes via Shahriar Mandanipour and Azar Nafisi to Rosewater Argo and 300 this
