Chamberlain, Hal Leonard Publications, 2004-11-09 *An Unsung Cat* explores the life and music of jazz saxophonist Warne Marsh. Safford Chamberlain follows the artist from his start in youth bands like the Hollywood Canteen Kids and The Teen Agers through his studies under Lennie Tristano, his brilliant playing of the 1950s, his disappearance from public view in the 1960s, his re-emergence in the 1970s, and his belated recognition in the 1980s as one of the finest tenor players of the post-World War II era. Through interviews with the Marsh family and friends, Chamberlain offers an inside view of Marsh's private life, including his struggles with drug abuse. Detailed analysis of outstanding performances complements the personal story, while an extensively researched discography and photographs reveal the public and private face of this unique performer. In addition to the book, Scarecrow is pleased to offer a companion compact disc released by Storyville Records. The tracks on the CD provide a representative sampling of Marsh's best work while providing a historical overview of his development from the beginning track "Apple Honey" (which is a private low-fidelity tape from an NBC radio broadcast in 1945 of the Hoagy Carmichael Show) to the final track "Sweet and Lovely" captured months before his death in 1987. *Catalogue of Choral Music Arranged in Biblical Order* James Laster, 2002 The Supplement continues the tradition of the Catalogue in that it is designed as an aid for the church musician and/or pastor seeking to plan unified worship services. It will also be of use to those church musicians who follow the Liturgical Calendar and plan music appropriate to the appointed lessons, as well as a source for non-church choir directors who would like to locate choral settings based on a particular passage from Scripture. The Supplement emphasizes music published since 1995 or titles that were overlooked in the previous editions. Entries are arranged from Genesis through Revelation. Each main entry citation provides the biblical reference, book, chapter, and verse, as well as a reference to additional passages from Scripture used in the anthem. The composer, arranger, or editor, and the title are listed as they appear on the octavo. Information on voicing solos and instrumental accompaniment is noted. The name of the publisher, the most recent date of publication, and the octavo number appear at the end of each citation, where information on instrumental parts, other versions of the same title, and collections where the work might appear are also listed. Composer and title indexes round off the work. *Towards a Global Music Theory* Mark Hijleh, 2016-02-24 Since the beginning of the twentieth century, the cross-pollination of world musical materials and practices has accelerated precipitously, due in large part to advances in higher-speed communications and travel. We live now in a world of global musical practice that will only continue to blossom and develop through the twenty-first century and beyond. Yet music theory as an academic discipline is only just beginning to respond to such a milieu. Conferences, workshops, and curricula are for the first time beginning to develop around the theme of world music theory, as students, teachers, and researchers recognize the need for analytical concepts and methods applicable to a wider range of human musics, not least the hybrid musics that influence and increasingly define more and more of the world's musical practices. *Towards a Global Music Theory* proposes a number of such concepts and methods stemming from durational and acoustic relationships between twos and threes, as

manifested in various interrelated aspects of music including rhythm melody harmony process texture timbre and tuning and offers suggestions for how such concepts and methods might be applied effectively to the understanding of music in a variety of contexts While some of the bases for this foray into possible methods for a twenty first century music theory lie along well established acoustical and psycho acoustical lines Dr Mark Hileh presents a broad attempt to apply them conceptually and comprehensively to a variety of musics in a relevant way that can be readily apprehended and applied by students scholars and teachers
