Exercises and case studies demonstrate key concepts and promote skill development by allowing students to experience the various challenges in the lives of older clients.

Handbook of the Psychology of Aging James E. Birren, K. Warner

Schaie, 2001-08-02 The Handbook of the Psychology of Aging has become the definitive reference source for information on the psychology of adult development and aging. The Fifth Edition provides comprehensive reviews of research on biological and social influences on behavior and age-related changes in psychological function. In addition to covering environmental influences on behavior and aging and gender differences in aging, new chapters in the Fifth Edition discuss wisdom, creativity, and technological change and the older worker. This handbook is an essential reference for researchers in adult development and gerontology and suitable as an advanced textbook for courses on the psychology of aging.

Nursing for Wellness in Older Adults Carol A. Miller, 2009 Now in its Fifth Edition, this text provides a comprehensive and wellness-oriented approach to the theory and practice of gerontologic nursing. Organized around the author's unique functional consequences theory of gerontologic nursing, the book explores normal age-related changes and risk factors that often interfere with optimal health and functioning to effectively identify and teach health promotion interventions. The author provides research-based background information and a variety of practical assessment and intervention strategies for use in every clinical setting. Highlights of this edition include expanded coverage of evidence-based practice, more first-person stories, new chapters, and clinical tools such as assessment tools recommended by the Hartford Institute of Geriatric Nursing.

The Royal Marsden Manual of Clinical Nursing Procedures Lisa Dougherty, Sara Lister, 2015-03-05 Nationally recognised as the definitive guide to clinical nursing skills, The Royal Marsden Manual of Clinical Nursing Procedures has provided essential nursing knowledge and up-to-date information on nursing skills and procedures for over 30 years. Now in its 9th edition, this full-colour manual provides the underlying theory and evidence for procedures, enabling nurses to gain the confidence they need to become fully informed, skilled practitioners. Written with the qualified nurse in mind, this manual provides up-to-date, detailed evidence-based guidelines for over 200 procedures related to every aspect of a person's care, including key information on equipment, the procedure, and post-procedure guidance, along with full-colour illustrations and photos. Following extensive market research, this ninth edition contains the procedures and changes in practice that reflect modern acute nursing care. Includes thoroughly reviewed and updated evidence underpinning all procedures, is organised and structured to represent the needs of a patient along their care pathway, integrates risk management into relevant chapters to ensure it is central to care, contains revised procedures following hands-on testing by staff and students at Kingston.
