Wiesner-Hanks, Merry E. Wiesner, 2013-02-21 Thoroughly updated best selling textbook with new learning features This acclaimed textbook has unmatched breadth of coverage and a global perspective **Luther the Reformer** James M. Kittelson, 2016-10-01 For nearly thirty years James M Kittelson's *Luther the Reformer* has been the standard biography of Martin Luther Like Roland Bainton's biography of the generation before Kittelson's volume is the one known by thousands of students pastors and interested readers as the biography that gave them the details of this dramatic man and his history The accolades were well deserved Fair insightful and detailed without being overwhelming Kittelson was able to negotiate a middle way between the many directions of historical research and present a more complete chronological picture of Luther than many had yet portrayed For this revised edition Hans H Wiersma has made an outstanding text even better The research is updated and the text is revised throughout with an emphasis on retaining the tone and pace of the original Additionally the volume has an entirely new map and image program updated bibliographies improved timelines and other features to enhance the reading experience It's a great volume greatly improved [The Shaping of Western Civilization](#) Michael Burger, 2013-01-01 Michael Burger's goal in this inexpensive overview is to provide a brief historical narrative of Western civilization Not only does its length and price separate this text from the competition but its no frills uncluttered format and well written one authored approach make it a valuable asset for every history student *The Shaping of Western Civilization* begins with the ancient Near East and ends with globalization Unlike other textbooks that pile on dates and facts *Shaping* is a more coherent and interpretive presentation Burger's skills as writer and synthesizer will enable students to obtain the background required to ask meaningful questions of primary sources In addition to suggestions for further reading this overview includes over 50 images and 22 maps **Rural Space in the Middle Ages and Early Modern Age** Albrecht Classen, 2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the

current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city. The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates. The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works. In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space. We also observe how much the rural world was a significant element already in early medieval mentality. Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic.
