Vigorito, 2015-11-05 Out of control sexual behavior referred to variously as sex addiction sexual compulsivity and hypersexuality among other terms has been a controversial and attention getting issue since it first captured both public and professional attention over 30 years ago Previous discussions of this behavior have been grounded in conceptualizing it as a pathologized medical issue on par with substance abuse addictions or in backlash as simply irresponsible behavior indicating weakness in the individual In keeping with the call from many leaders in the mental health and sexual health areas to move beyond these two polarized conceptualizations of these sexual behavior problems the authors present a model for working with clients in both group and individual treatment settings Based on their experience with hundreds of clients this book provides a comprehensive and practical conceptualization of out of control sexual behavior framed as a sexual health problem within a larger model of human behavior not a psychiatric or addictive disorder The book includes step by step tools for assessment treatment planning as well as treatment implementation It describes a process for professionals to guide clients to define and be accountable for their own personal vision of sexual health as the foundation on which they regain sexual behavior control The authors provide rich and varied composite case examples based on 20 years of clinical experience that demonstrate clinician sexual health treatment conversations and tools as well as stories of hope and guidance so essential to individuals wanting to understand how sexual health can be the essential ally in changing their sexual behavior **LGBTQ Divorce and Relationship Dissolution** Abbie E. It is the most comprehensive volume describing the couple cognitive behavioral approach to assessment, treatment, and relapse prevention of sexual dysfunction. The focus is on sexual desire and satisfaction with an emphasis on the Good Enough Sex (GES) model of sharing sexual pleasure rather than an individual perfect intercourse performance test. This title reflects the contributions of Mike Metz to the field of couple sex therapy.

How We Love John Mark Falkenhain, 2019-06-24 2020 Association of Catholic Publishers second place award in general interest. In this volume Br John Mark Falkenhain OSB, a Benedictine monk and clinical psychologist, provides a well researched and thorough program for celibacy formation for men and women adaptable to both religious and seminary settings. Attending to the theological and the psychosexual dimensions of what it means to pursue a life of chaste celibacy, Br John Mark identifies and expands on four major content areas including motives for chaste celibacy, theological aspects of celibate chastity, sexual identity, and skills for celibate living. Formation goals and benchmarks for discernment are discussed for each content area, and implications and suggestions for ongoing formation are offered. American Literature and American Identity Patrick Colm Hogan, 2021-11-10. In recent years, cognitive and affective science have become increasingly important for interpretation and explanation in the social sciences and humanities. However, little of this work has addressed American literature, and virtually none has treated national identity formation in influential works since the Civil War. In this book, Hogan develops his earlier cognitive and affective analyses of national identity, further exploring the ways in which such identity is integrated with cross-culturally recurring patterns in story structure. Hogan examines how authors imagined American identity, understood as universal democratic egalitarianism, in the face of the nation's clear and often brutal inequalities of race, sex, and sexuality, exploring the complex and often ambivalent treatment of American identity in works by Charlotte Perkins Gilman, Eugene O'Neill, Lillian Hellman, Djuna Barnes, Amiri Baraka, Margaret Atwood, N. Scott Momaday, Spike Lee, Leslie Marmon Silko, Tony Kushner, and Heidi Schreck. **Being Gay in Ireland** Gerard Rodgers, 2018-06-20. In *Being Gay in Ireland: Resisting Stigma in the Evolving Present*, Gerard Rodgers argues that existing theory and research on the lives of gay men often exhibits a social weightlessness such that self-beliefs are frequently decoupled from an analysis of society. History and conventions inform and shape gay men's self-beliefs, yet psychology as a discipline rarely dialogues with historical or political scholarship. Rodgers corrects this oversight with a critical analysis of the decades of socio-political struggle in Ireland and elsewhere. Rodgers captures the lives of gay men who are situated in varied contexts and who all, despite their different situations, possess self-beliefs that are shaped by wider historical traditions and evolving social change. Rodgers argues that the nuances and particulars of self-beliefs are significantly affected by wider historical traditions and evolving social and political changes. Through his reconstruction, Rodgers provides practitioners of applied psychological and

therapeutic disciplines with an in depth picture of how historical context and social justice successes have interacted with gay men s self beliefs with a particular focus on how prosocial resistances against prejudice have incrementally eroded historical standards of gay stigma
