Entrepreneurs in High Technology Edward B. Roberts, 1991-08-22 The ingredients for success in starting and developing a technology based company aren't obvious Why for example did Digital Equipment Corporation succeed and indeed become one of the most successful high tech corporations in the world while dozens of other companies with similar beginnings fail It is a question that demands careful consideration by anyone setting up a new company or who is interested in starting one In *Entrepreneurs in High Technology* Edward Roberts a Professor at the MIT Sloan School of Management offers entrepreneurs a goldmine of information on starting financing and expanding a high tech firm His book reveals the results of research conducted over twenty five years on several hundred high tech firms and it reflects the insights of the author's own first hand experience as a company founder director and venture capitalist Focusing on firms in the Greater Boston area many of which have had technological links with MIT Roberts traces the origins and the evolution of the high technology failures and successes He examines the work experience and family backgrounds of successful technical entrepreneurs their sources of funding and the ways they respond to the challenge of business growth He compares the track records of firms with multi founder teams and firms with individual founders contrasts the performance of consulting firms and research and development contractors against companies that start out with a product identifies the factors that limit an enterprise's ability to raise outside capital and explores the critical influence of marketing orientation on successful companies In a penetrating analysis of highly successful ventures the author reveals the importance of strategically transforming the company to a market oriented focus and he examines the widespread tendency even among the most successful high tech firms to displace the founder before the company achieves super success For anyone planning to start a technology based enterprise *Entrepreneurs in High Technology* is essential reading an invaluable preview of the financial organizational and marketing issues that confront every new high tech venture For business and technology watchers it is an informative account of the promise and the perils entailed in bringing innovative ideas to the marketplace

Handbook of Research on Business Angels Hans Landström, Colin Mason, 2016-09-28 Business angels are recognized as playing a key role in financing the start up and early stages of new ventures However our knowledge of how business angels operate remains limited and highly fragmented This *Handbook* provides a synthesis of research on business angels It adopts an international perspective to reflect the spread of angel investing around the world The increasing number of government initiatives to promote angel investing is also reflected in the book with an assessment of the most common support schemes Adopting an international focus the expert group of contributors examine business angels themselves the evolution of the market the various stages of the investment process and the role of public policy in influencing angel investment They each conclude their chapters with an agenda for future research on business angels Students and scholars of entrepreneurship

entrepreneurial finance and related subjects will find this book to be an invaluable resource for their work In particular they will benefit from the research agendas that conclude each chapter This Handbook will also be of interest to policy makers and other practitioners looking to enhance their understanding of the design and need for such interventions

Enterprise: Concepts and Issues Norin Arshed, Mike Danson, 2016-01-31 Introduces the terms theories and practices in the fields of entrepreneurship and enterprise to look deeper into this phenomena It covers the origins and development of entrepreneurialism and addresses the drivers barriers and evolution into new areas of business and economic activity
