Why Use Natural Healing Fletcher Kovich, 2021-08-06 The book compares the science and efficacy of natural healing with that of pharmaceuticals A person usually becomes ill due to subtle organ malfunctions induced by various stresses There is a natural resonance between each organ and certain bodily locations and traditional acupuncture uses this resonance to return the organs to normal function which clears all symptoms and produces a genuine cure Whereas today's drug based approach has no ability to remedy such organ malfunctions Instead its usual approach is to chemically block the normal function of healthy aspects of the body in an attempt to conceal symptoms In the process such drugs also accidentally chemically block the main organs from working normally which is what produces most adverse effects and prevents the patient from ever returning to full health This approach though damaging to health has become today's medical religion This is why mainstream healthcare often finds itself unable to properly treat many common conditions In contrast natural healing successfully treats those same conditions by simply returning the organs to normal function The book demonstrates the natural healing approach to most conditions and this is compared to the drug based approach including the fraudulent conduct of drug companies in concealing harms manipulating data and making false claims for their drugs to boost sales at the expense of world health Ironically the book shows that a 2 000 year old medical system is far more scientific effective and genuinely evidence based than today's mainstream healthcare Fletcher Kovich works as a traditional

acupuncture practitioner and researcher He developed and tested the intelligent tissue theory which for the first time scientifically explains how acupuncture works to correct organ malfunctions *Mudcat Mikey's 200 Short Stories #161 to #200* Michael J.
