Rod Grainger set out to create a new kind of owner's workshop manual friendly, easy to understand, easy to use and yet more detailed than any other manual currently available. Two years later the Mazda MX-5 Miata 1.6 Enthusiast's Workshop Manual was the result. Rod and fellow enthusiasts Pete and Judith stripped down an MX-5 in an ordinary domestic garage using ordinary tools and in the process took over 1,500 step-by-step photographs. The result of all this work is a superbly detailed text which passes on to the reader every detail of important jobs including how problems can be overcome without resorting to special tools. This manual even tells the reader the size of nuts and bolts so they can start work with the right tools and all clearances and torque values are given in the text as the reader needs them. At paragraph level a unique symbol system provides cross references or tells the reader that there are helpful associated photos, drawings and tables. The dreaded words reassembly is a reversal of the dismantling procedure are banned and every task from changing a bulb to rebuilding the gearbox is described in full. Besides detailed coverage of maintenance and repairs, this manual includes advice on rustproofing, cosmetic tuning and mechanical tuning. Rod's manual was prepared with the assistance of Mazda and it applies to all 1.6 litre models built between 1989 and 1995. Most of the manual is relevant to later 1.6 litre models too. *Mazda MX-5 Miata 1.6* Rod Grainger, 2006-08-22. The super manual for Miata owners. The author has personally dismantled and reassembled a Miata taking step-by-step pictures of all procedures. This combined with his personal interest in the Miata and his years of writing and editing Haynes manuals provides the background necessary to write the best Miata shop manual available. Coverage includes maintenance, repairs, modifications and improvements on all 1.6 liter Miatas from 1989-1994.
