Marx,2007-02 This collection of essays brings together the current research on Johann Mattheson 1681 1764 an influential musician and chronicler of musical thought in eighteenth century Germany The essays explore the cultural climate of Hamburg during Mattheson s lifetime Mattheson as a composer Mattheson s relationship to his contemporaries and Mattheson s influence on developing musical theories and aesthetics      **Steamship Nationalism** Mark A.

Russell,2020-04-15 Steamship Nationalism is a cultural social and political history of the S S Imperator Vaterland and Bismarck Transatlantic passenger steamships launched by the Hamburg Amerikanische Packetfahrt Aktien Gesellschaft HAPAG between 1912 and 1914 they do not enjoy the international fame of their British counterparts most notably the Titanic Yet the Imperator class liners were the largest most luxurious passenger vessels built before the First World War In keeping with the often overlooked history of its merchant marine as a whole they reveal much about Imperial Germany in its national and international dimensions As products of business decisions shaped by global dynamics and the imperatives of international travel immigration and trade HAPAG s giant liners bear witness to Germany s involvement in the processes of globalization prior to 1914 Yet this book focuses not on their physical but on their cultural construction in a variety of contemporaneous media including the press and advertising on both sides of the Atlantic At home they were presented to the public as symbolic of the nation s achievements and ambitions in ways that emphasize the complex nature of German national identity at the time Abroad they were often construed as floating national monuments and as such facilitated important encounters with Germany both virtual and real for the populations of Britain and America Their overseas reception highlights the multi faceted image of the European superpower that was constructed in the Anglo American world in these years More generally it is a pointed indicator of the complex relationship between Britain the United States and Imperial Germany      **Wirtschaftsräume und Lebenschancen** Stefan Grüner,Sabine Mecking,2017-05-22 In beiden deutschen

Jahrhunderts Dabei werden Möglichkeiten und Grenzen der Steuerungsansätze sowohl im nationalen Kontext analysiert als auch mit Blick auf kollektive Akteure und Betroffene wie Länderregierungen und Kommunen Branchen und Unternehmen Gewerkschaften und Arbeitnehmer      **Communicative Figurations** Andreas Hepp,Andreas Breiter,Uwe Hasebrink,2017-11-27 This open access volume assesses the influence of our changing media environment Today there is not one single medium that is the driving force of change With the spread of various technical communication media such as mobile phones and internet platforms we are confronted with a media manifold of deep

mediatization But how can we investigate its transformative capability This book answers this question by taking a non media centric perspective researching the various figurations of collectivities and organizations humans are involved in The first part of the book outlines a fundamental understanding of the changing media environment of deep mediatization and its transformative capacity The second part focuses on collectivities and movements communities in the city critical social movements maker online gaming groups and networked groups of young people The third part moves institutions and organizations into the foreground discussing the transformation of journalism religion politics and education whilst the fourth and final part is dedicated to methodologies and perspectives **(Re)Constructing Communities in Europe, 1918-1968**

Stefan Couperus,Harm Kaal,2016-10-26 This book offers a new perspective on the social history of twentieth century Europe by investigating the ideals and ideas the life worlds and ideologies that emerge behind the use of the concept of community It explores a wide variety of actors ranging from the tenants of London council estates to transnational cultural elites 100

Ferguson,2002-11-07 Few economic events have had a more profound or enduring impact than the German hyperinflation of 1923 still remembered popularly as a root cause of Hitler s rise to power Yet many historians have argued that inflationary policies were on balance advantageous to post 1918 Germany both boosting growth and helping to reduce reparations The scholarly consensus is that there was no viable alternative to inflation In *Paper and Iron* Niall Ferguson takes a different view He argues that inflation was indeed an economic and political disaster and further that there were alternative economic policies which could have stabilised the German currency in 1920 To explain why these were not adopted he points to long term defects in the political institutions of the Reich which went back as far as the 1890s and which persisted beyond 1918 The book therefore reveals the Wilhelmine origins of Weimar s failure as well as casting light on the origins of the Third Reich **Arrival Infrastructures** Bruno Meeus,Karel Arnaut,Bas van Heur,2018-06-16 This volume introduces a strategic interdisciplinary research agenda on arrival infrastructures Arrival infrastructures are those parts of the urban fabric within

which newcomers become entangled on arrival and where their future local or translocal social mobilities are produced as

much as negotiated Challenging the dominance of national normativities temporalities and geographies of arrival the authors scrutinize the position and potential of cities as transnationally embedded places of arrival Critically interrogating conceptions of migrant arrival as oriented towards settlement and integration the volume directs attention to much more diverse migration trajectories that shape our cities today Each chapter examines how migrants street level bureaucrats local residents and civil society actors build with the resources they have at hand the infrastructures that accommodate channel and govern arrival
