Perspectives on Free and Open Source Software Joseph Feller,2005 Leading Free and Open Source software researchers and analysts consider the status of the open source revolution and its effect on industry and society Business Success with Open Source VM (Vicky) Brasseur,2025-03-18 Free and open source software FOSS is everywhere and is the driving force behind nearly all software developed today It doesn t matter what industry your company is in Learning more about how to use contribute to and release FOSS can be the strategic edge that your company needs With the proper knowledge and approach open source can form the cornerstone of a digital transformation effort increase developer retention decrease recruiting cycles ensure reliable security and reinforce the company brand All this and more by shifting your company s FOSS strategy from accidental to intentional Free and open source software FOSS is the whetstone of the cutting edge Your company is almost certainly using FOSS right now whether

you know it or not FOSS is already part of your company so you need to know how to manage it effectively and strategically. If you're participating in a digital transformation effort or reducing business risk or building a product roadmap or creating a company or team strategy or if you need to round out your existing open source knowledge by filling in some gaps, this is the information you need. Discover how to use, contribute to, and release open source projects effectively and strategically for your business. Avoid the dangers inherent in license compliance and other intellectual property matters. Incorporate community management to bolster the sustainability of projects that are critical to your company. Manage your software supply chain to track and maintain the projects your company relies on. Create policies and procedures both for inbound and outbound FOSS engagement. Develop tactics for community management to ensure corporate open source efforts remain on target for business goals. Build your free and open source software strategy and go from accidental to intentional. What You Need: No software requirements, just a desire to help your company succeed through proper open source engagement.
