Hazardous Materials Incidents Steven M. DeLisi, 2006 First responders who arrive on scene of a hazardous materials incident may be assigned to an engine ladder truck rescue or ambulance with very little sophisticated HAZMAT equipment Despite these limitations their actions during the initial response will often set the stage for the success or failure of the entire event Many incidents start out as minor routine events that suddenly escalate when something goes terribly wrong Perhaps first responders did not anticipate the involvement of hazardous materials in a response to a rear end collision involving two passenger vehicles an EMS call at a residence for difficulty breathing or a trash fire That is until it was too late First responders despite their best intentions can quickly become part of any hazardous materials problem The results can be first responders who are killed or seriously injured or those who suffer devastating illnesses years after exposure to a hazardous material Even if you have hours of training on hazardous materials response this book will provide
