forces teachers to water down curriculums in an attempt to make English more readily acquired As a result Deaf students are deprived of rich and challenging content Rethinking the Education of Deaf Students offers an alternative and demonstrates how American Sign Language ASL and English can coexist in the same classroom embedded in the content of what is being taught Through clear theoretical explanations field tested teaching strategies authentic examples of students work lesson plans and sections on assessment Livingston suggests ways to help students become educated language users Her ideas hold enormous implications for those who teach Deaf students develop school budgets design programs and train future teachers More important they may hold the key that unlocks the potential of Deaf students of all ages to become voracious readers and accomplished writers      **The Baby's Book of Babies** Kathy Henderson,1993-06-03 Photographs and text depict babies crawling creeping feeding teasing laughing bathing and doing other daft things      **Books in Print** ,1977
