**The Psychology of Love and Hate in Intimate Relationships** Katherine Aumer, 2016-06-23 Social psychology has made great advancements in understanding how our romantic relationships function and to some extent dissolve. However, the social and behavioral sciences in much of western scholarship often focus exclusively on the more positive aspects of intimate relationships and less so on more controversial or unconventional aspects. The goal of this volume is to explore and illuminate some of these underrepresented aspects, such as non monogamy, female orgasm, sadism, and hate that often function alongside love in intimate relationships. Ultimately, by looking at intimate relationships in this way, the volume contributes to and advocates for a more holistic and comprehensive view of intimate relationships. Throughout the volume, contributors from social, clinical, and evolutionary psychology cover love and hate from a variety of, sometimes opposing, perspectives. The first section covers love and the changing landscape of intimate relationships. Its chapters review the current literature and research of understudied topics like non monogamy, female orgasm, sexual fantasies, and the viewpoint of love as something other than positive. The second section explores hate and how hate can operate in intimate relationships, for example, the appearance of sadistic behavior and debates the nature of hate as either a motivation or emotion. The volume concludes by looking at ways in which the appearance of hate in relationships can be dealt with and overcome successfully. Taken together, these two sections reflect the full variety of experiences within intimate relationships. With the aim of exploring how love and hate can and frequently do work together, *The Psychology of Love and Hate in Intimate Relationships* is a fascinating psychological exploration of intimate relationships in modern times. It is an invaluable resource to academics and students specializing in psychology, gender, and sociology, including clinicians and therapists, and all those interested in increasing our knowledge of intimate relationships.

**Coaching Myths** Rick Albrecht, 2013-04-19 Unlike the generations of coaches that have gone before them, today's coaches are expected not only to teach motor skills to young athletes but to do so in an environment that is conducive to the ethical, emotional, social, and physical well-being of each one of them. Each of the 15 chapters of this book presents and then systematically debunks the most pervasive, persistent, and potentially harmful myths in coaching, including such chestnuts as "play by my rules, winning is the ultimate goal" and "there's no I in team." Although the information in every chapter is based on current scientific evidence and there are numerous source notes, each is written in the everyday language of coaches and covers topics that are of particular interest to coaches, parents, athletic administrators, recreation programming specialists, and even the occasional fan.

*Mind Control 101 - How to Influence the Thoughts and Actions of Others Without Them Knowing Or Caring* J. K. Ellis, Dantalion Jones, 2011-09-12 Why would someone write a book on Mind Control? Because as much as we try to elevate ourselves above being human animals, we are in fact animals. We are subject to the wants and desires of any being with a genome and vertebrae. To rise above that is an admirable and a task we should take on as a worthy spiritual endeavor. But to deny that we are truly animals is to lie to ourselves. We must deal with

people who may not be so enlightened advanced as we are They may desire what we have and be secretly filled with envy and contempt The worst event is to have these suspicions fulfilled and then be pulled down into the politics of man Do we deny that it s happening and hope others will be touched by our honesty and good will enough to change Or do we drop our highest spiritual ideals and play their game I would like to suggest a radically different strategy Take the game of manipulation and Mind Control and make it a part of your spirituality      **We Did What?!** Timothy B.
