Gemstones A to Z Diane Stein, 2012-05-02 Legendary healer Diane Stein shares her extensive knowledge of gemstones in this concise agate to zircon reference. Each listing includes the stone's common name, its corresponding color and chakra, and a concise resume of its healing properties. Stein suggests ways to use stones to support physical and psychic well-being by simply carrying one in a hand or pocket, wearing it as jewelry, or engaging in more advanced practices like the laying on of stones. She also presents a glossary of terms designed for beginning students of metaphysical healing practices and teaches how to clear, dedicate, and maintain crystals to maximize their beneficial effects. A quick reference to 550 gemstones and crystals, including many that are new to the marketplace and their special healing properties and most helpful applications. Includes diagrams of the Kundalini physical and Hara Line emotional chakra healing systems for simplified cross-referencing with the stones. Diane Stein's books have sold more than half a million copies and are available in six languages. *The Essential Guide to Crystals* Golnaz Alibagi, 2023-09-12 Golnaz gently mentors readers through the qualities of each stone. Her practical suggestions will help nurture and encourage any budding crystal guru to success. Spirit and Destiny: Whether you want to wow your boss, meet your soulmate, develop self-confidence, or keep calm in a crisis, *The Essential Guide to Crystals* will show you how to do all this and more for a happier, healthier life. With so many beautiful and powerful gems to choose from, it can be difficult to know which one is best for your current situation. Golnaz Alibagi makes choosing the correct crystal easy by organizing gems by benefit, with chapters on home, work, love, friendship, abundance, and wellbeing. Handy crystal cocktails and gem scripts show you how to combine the crystals to maximise their healing power, and each chapter features a power crystal with an in-depth look at this crystal's properties, including links to the chakras, astrology, and the planets. Golnaz's easy-to-follow practical suggestions will help you to work with crystals to change every aspect of your life for the better.

Gemstones Michael O'Donoghue, 2012-12-06 *Gemstones* is the first attempt in English to bring together the geological, mineralogical, and gemmological developments that have taken place during the last thirty years. Though there have been many gemstone books published in that time, most have been concerned understandably and rightly with the science of gem testing and have covered that area very well. Details of the geological occurrence of many of the classic gemstones and of nearly all those which have only recently been discovered have been less adequately dealt with. Coverage has been restricted to a number of papers in a wide variety of geological and mineralogical journals. *Gemstones* hopes to get the balance right. In the preparation of the book, all the journals and monographs in the field have been consulted so that the book should stand for some years as the authority to which gemmologists and others turn in the first instance. Ease of reference and depth of coverage make *Gemstones* both a reference book and a bench book. Acknowledgements: I am grateful to Brian Jackson of the Department of Geology, Royal Museums of Scotland, who read the manuscript and painstakingly indicated places where amendment or alteration was needed. I am also grateful to the publishers of the books on which the line illustrations are based. The colour plates present in the book derive from a number of sources which I would like to
