Gnostic Of Hours Keys To Inner Wisdom:

A Gnostic Book of Hours June Singer,1992 *Gnostic Writings on the Soul* ,2011-08-18 The inspiration and insight of these Gnostic writings can become a companion on your own spiritual journey Just what is a soul exactly Where did the idea come from How do we experience our souls Two ancient Gnostic texts The Exegesis on the Soul and The Hymn of the Pearl both presented here in all new translations hold important clues to the development of the soul as a concept and reveal inspiring ways your own soul can remember and return to its unique divine purpose The Exegesis on the Soul depicts the soul as a feminine figure who has fallen into the corrupted world and must find her way back to the Divine It is the story of the soul s struggle and redemption that will embolden your own spiritual pilgrimage The Hymn of the Pearl is an allegorical story about a prince sent to retrieve a precious pearl but who soon forgets his purpose and falls asleep It is a moving tale of the importance of remembering your soul s identity and calling and knowing that only you can fulfill your destiny Accessible facing page commentary explains the Gnostic writings for you even if you have no previous knowledge of Gnosticism or early Christianity Additional material draws on ancient religions Platonism Christianity Judaism Islam and modern philosophical and psychological notions of the soul to place the Gnostic teachings in a clear historical context By following the development of this concept through time you will more clearly perceive and respond to the divine spark found in your own soul

Gnosticism Stephan A Hoeller,2012-12-13 Gnosticism developed alongside Judeo Christianity over two thousand years ago but with an important difference It emphasizes not faith but direct perception of God Gnosticism being derived from the Greek word gnosis meaning knowledge Given the controversial premise that one can know God directly the history of Gnosticism is an unfolding drama of passion political intrigue martyrdom and mystery Dr Hoeller traces this fascinating story throughout time and shows how Gnosticism has inspired such great thinkers as Voltaire Blake Yeats Hesse Melville and Jung

The Essence of the Gnostics Bernard Simon,2005-03-01 For what is it that the All lacked if not the knowledge of the Father Gnostic text from the Gospel of Truth Long before there was a system of belief called Gnosticism there were those who reached for a special intimate knowledge of God and His mysterious ways The possession of such knowledge they believed would bring salvation from suffering All religious traditions acknowledged that the world is imperfect Where they differ is in the explanations they offer for this imperfection and in what they suggest might be done about it While many religionists hold that humans are to be blamed for these imperfections the Gnostics believed that the world is flawed because it was created in a flawed manner thereby implicating the creator Such a perspective was regarded as blasphemous by fellow Christians at the dawn of the new religion and led to the sect s persecution Equally concerning were the Gnostics liberal views regarding sex the role of women and toleration of other faiths In *The Essence of the Gnostics* Bernard Simon offers a fascinating insight into this ancient and yet in many ways surprisingly contemporary faith and explores the reasons for its current renaissance [A Dictionary of Gnosticism](#) Andrew Phillip Smith,2014-03-17 A Dictionary of Gnosticism is a scholarly

Before Abraham Was I Am: Cleo Newsome Jr.,2010-05-20 When God created the universe He also created the Metaphysical universe This paraphrase from Donald Walch s book A Conversation with God aptly points to the intricate matrix of themes ideas and concepts which formulate a complete world view of how things work This is important because our individual belief system has a direct impact on all of the events and important episodes in our lives and generally affects the quality and longevity of life as a whole God as the omnipotent catalyst of the entire creative process does not interfere with our choices but instead allows us to reap the benefits or suffer the consequences of our decisions When we learn to raise our thinking to the higher consciousness of divine mind the quality of life both individually and as a people will be naturally uplifted from an uncertain existence of coincidence and chance to a progressively stable and secure co existence with the sustaining grace of God s unlimited cosmos This book represents an attempt to explore some of the more relevant concepts of mankind s symbiotic relationship to an immaculate Holiness in which we intuitively have always known to exist but through the daily grind of everyday living have somehow lost touch The book is not amid at any particular religion culture or ethic group but is a rather modest endeavor to discuss an array of universal themes and concepts common to us all

Stirring of Soul in the Workplace Alan Briskin, 1998-12-28 This deeply lyrical book offers perspective for those struggling to hear the quiet voice of the soul over the din of the contemporary workplace Alan Briskin shows how the modern organization has gradually increased its demands on us beginning with our bodies then our minds and now our souls But through the moving personal stories of people fighting to reclaim their souls he also sends a message that encourages individuals to keep their spiritual integrity and values alive In The Stirring of Soul In the Workplace Briskin weaves together lessons from history psychology and management theory with numerous real life examples to tell the story of how the modern workplace has evolved to value technology and productivity over soulfulness and relationship From the Industrial Revolution's marriage of mechanization and efficiency to the management theories of the early 20th century Briskin traces the emergence of the quest for efficiency and control in the workplace He questions the corporate concept of individual personality that asks us to check our emotions fantasies imaginations and souls at the door He describes the history of the soul as a dynamic force that continues to influence our behavior and shows how excluding it from our work life actually flattens our potential and dampens our creativity Rather than solve the conventional question organizations have been asking for years how can we change people Alan Briskin examines how organizations can better reflect personal and human values in the workplace For organizations that too often have sacrificed the well being of the individual for the goals of the organization the author suggests a more active way of taking up our work roles that can bring more of our experience and imagination into play He points out that meaning cannot come from corporate mission statements or reengineering

programs Instead it needs to be nurtured through dialogue and reflection the courage to ask troubling questions and a willingness to face the consequences of our collective and individual actions When we learn to honor the contradictions uncertainties and interconnections inherent in the workplace the energies of the soul will begin to stir with revitalizing results
