God And Time Four Views:

God and Time Gregory E. Ganssle, 2001-09-28 Editor Gregory Ganssle calls on four Christian philosophers to present and defend their views on the place of God in a time bound universe The positions taken up here include divine timeless eternity eternity as relative timelessness timelessness and omnitemporality and unqualified divine temporality

Perspectives on the Doctrine of God Bruce A. Ware, Paul Helm, Roger E. Olson, John Sanders, 2008 Classical Calvinist Modified Calvinist Classical Arminian and Open Theist views are evenly and productively discussed in *Perspectives on the Doctrine of God*

God and Time Gregory E. Ganssle, 2025-10-16 The eternal God has created the universe And that universe is time bound How can we best understand God's relationship with our time bound universe For example does God experience each moment of time in succession or are all times present to God How we think of God and time has implications for our understanding of the nature of time the creation of the universe God's knowledge of the future God's interaction with his creation and the fullness of God's life In this Spectrum Multiview volume four notable philosophers skillfully take on this difficult topic all writing from within a Christian framework yet contending for different views Paul Helm argues that divine eternity should be construed as a state of absolute timelessness Alan G Padgett maintains that God's eternity is more plausibly to be understood as relative timelessness William Lane Craig presents a hybrid view that combines timelessness with omnitemporality And Nicholas Wolterstorff advocates a doctrine of unqualified divine temporality Each essay is followed by responses from the other three contributors and a final counter response from the original essayist making for a lively exchange of ideas Editor Gregory E Ganssle provides a helpful introduction to the debate and its significance Together these five scholars conduct readers on a stimulating and mind stretching journey into one of the most controversial and challenging areas of theology today Spectrum Multiview Books offer a range of viewpoints on contested topics within Christianity giving contributors the opportunity to present their position and also respond to others in this dynamic publishing format

God and Time Natalja Deng, 2018-11-29 The God of Western religion is said to be eternal But what does that mean Is God somehow beyond time living a life that does not involve one thing after another Or is God's relationship to time much more like ours so that God's eternality just consists in there being no time at which God doesn't exist Even for non believers these issues have interesting implications for the relation between historical and scientific findings on the one hand and religion on the other This Element introduces the reader to the requisite metaphysical background and then examines reasons for and against thinking of God as timeless

God, Time, Infinity Mirosław Szatkowski, 2018-05-07 The issues of the nature and existence of God time and infinity respectively and how they relate to each other are some of the most complicated problems of metaphysics This volume presents contributions of thirteen internationally renowned scholars who deal with various aspects of these complex issues The contributions were presented and discussed during the international conference God Time Infinity held in Warsaw September 22-24 2015

The Doctrine of God John C. Peckham, 2019-09-05 John C Peckham

introduces and engages with major questions about God's nature and how God relates to the world Does God change Does God have emotions Can God do anything Does God know the future Does God always attain what God desires And is God entirely good This textbook provides a clear and concise overview of the issues involved in these and other questions exploring prominent contemporary approaches to the main issues relative to how to conceive of the God world relationship within Christian theology In so doing Peckham surveys a range of live options regarding each of the primary questions briefly considering where each falls within the spectrum of the Christian tradition and providing clear and readily understandable explanations of the technical issues involved The result is a stimulating survey of the most prominent options in Christian theology relative to divine attributes and the God world relationship offered in an accessible format for students Designed for classroom use this volume includes the following features study questions for each chapter suggestions for further reading for each chapter glossary

Toward a Priestly Christology Adriani Milli Rodrigues, 2018-11-02 Toward a Priestly Christology is a constructive theology on the person and work of Christ from the standpoint of a systematic thinking about his priesthood This priesthood is usually discussed in biblical scholarship on the Christology of Hebrews and also explored in historical or systematic theology with its connections with soteriology and ecclesiology However there is a scarcity of studies that attempt to systematize this topic in its basic components and their ontological foundations in order to provide conceptual clarity for a constructive discussion of the priestly Christology in systematic theology The book makes a contribution to this discussion by engaging firstly with the main models of Christ's priesthood in Christian theology and then with a theological reading of the letter to the Hebrews In both steps the author conceptually articulates the priesthood in terms of need agent actions and goal Then he observes the conceptual articulation from the macro hermeneutical point of view of ontology especially noticing how assumptions on time and space impact the internal logic of Christ's priesthood By using existing models of this priesthood as heuristic tools for systematic thinking the work attempts to push Christian theology toward a more dynamic understanding of Christ's priesthood especially regarding the relationship between the ascended Christ and our Christian life

God, Time, and the Incarnation Richard A. Holland, 2012-02-20 The dominant view among Christian theologians and philosophers is that God is timeless that he exists outside of time in an atemporal eternity In God Time and the Incarnation Richard Holland offers a critical evaluation of this traditional view in light of the most central doctrine of Christianity the Incarnation of Christ Holland reviews the history of this controversy highlighting the various theological problems for which atemporal models have been offered as a solution He asserts the central importance of the Incarnation for Christian theology and evaluates several atemporal models in light of this doctrine Finally he suggests that the traditional atemporal view is not compatible with a robust and orthodox view of the Incarnation This book rejects the traditional atemporal view of God's relationship to time and argues based on the Incarnation that God experiences temporal sequence in his existence

God and the Nature of Time Garrett J. DeWeese, 2017-03-02 Is God temporal in time or atemporal outside of time Garrett DeWeese begins with

contemporary metaphysics and physics developing a causal account of dynamic time Drawing on biblical material as well as discussions of divine temporality in medieval and contemporary philosophical theology DeWeese concludes that God is temporal but not in physical time as we measure it Interacting with issues in the history of philosophy contemporary philosophy of science and philosophy of religion this book offers students a thorough introduction to the key issues and key figures in historical and contemporary work on the philosophy of time and time in theology The Wisdom Background and Parabolic Implications of Isaiah 6:9-10 in the Synoptics Donald E. Hartley, 2006 The Wisdom Background and Parabolic Implications of Isaiah 6 9 10 in the Synoptics seeks to understand the divine act of fattening in Isaiah 6 9 10 and how it shapes one's understanding of parables in the Synoptic Gospels The author approaches the topic from within a wisdom matrix and lays an historical exegetical foundation for understanding these and other critical passages in the New Testament Readers will follow the Isaian text through varied traditions revealing a marvelous unity in terms of the divine action and the human condition College and seminary courses focusing on hermeneutics wisdom outside the wisdom corpus and the Synoptic Gospels will find this book innovative challenging and provocative *Reformed Systematic Theology, Volume 1* Joel Beeke, Paul M. Smalley, 2019-03-14 The church needs good theology that engages the head heart and hands This four volume work combines rigorous historical and theological scholarship with application and practicality characterized by an accessible Reformed and experiential approach In this volume Joel R Beeke and Paul M Smalley explore the first two of eight central themes of theology revelation and God **Reader in Trinitarian Theology** Henco van der Westhuizen, 2022-12-15 Speaking God today signifies assuming the task constitutive of the discipline of systematic theology A relational God who lives in ex static self giving creates Christian communities of hospitality and generosity and offers a healing vision of truth goodness and beauty Speaking the Triune God extends the promise of the benediction May the grace of the Lord Jesus Christ and the love of God and the fellowship of the Spirit be with you all Rian Venter In this first volume on doing Theology in South Africa Henco van der Westhuizen assembled an array of articles by South African theologians on Trinitarian Theology from 1976 to today The Uncontrolling Love of God Thomas Jay Oord, 2015-11-09 Rarely does a new theological position emerge to account well for life in the world including not only goodness and beauty but also tragedy and randomness Drawing from Scripture science philosophy and various theological traditions Thomas Jay Oord offers a novel theology of providence essential kenosis that emphasizes God's inherently noncoercive love in relation to creation **God, Eternity, and Time** Edmund Runggaldier, 2016-12-05 God is eternal is a standard belief of all theistic religions But what does it mean If on the one hand eternal means timeless how can God hear the prayers of the faithful at some point of time And how can a timeless God act in order to answer the prayers If God knows what I will do tomorrow from all eternity how can I be free to choose what to do If on the other hand eternal means everlasting does that not jeopardize divine majesty How can everlastingness be reconciled with the traditional doctrines of divine simplicity and perfection An outstanding group of

American UK German Austrian and Swiss philosophers and theologians discuss the problem of God's relation to time. Their contributions range from analyzing and defending classical conceptions of eternity (Boethius's and Aquinas's) to vindicating everlastingness accounts and from the foreknowledge problem to Einstein's Special Theory of Relativity. This book tackles philosophical questions that are of utmost importance for Systematic Theology. Its highest aim is to deepen our understanding of religious faith by surveying its relations to one of the most fundamental aspects of reality: time.

The Method of Christian Theology Rhyne Putman, 2021-05-15 In *The Method of Christian Theology* Rhyne Putman guides readers through the essential first words of systematic theology. Written for entry-level theology students, this book gives clear suggestions about how to use theological sources, how to reason through difficult problems, and how to apply theological reflection to paper writing and preaching. By studying the foundations of theology, readers will be better equipped to serve God's people in whatever ministry they are called to.

How Much Does God Foreknow? Steven C. Roy, 2006-08-23 Steven C. Roy provides a comprehensive review of biblical teaching from both Old and New Testaments, which provides the basis for critically engaging today's philosophical and theological debates.

Time, Eternity, and the Trinity Eunsoo Kim, 2010-03-01 One of the vital issues in contemporary Christian theology is the problem of a renewed understanding of God's eternity and its relation to time. This is not merely a peripheral doctrinal issue but lies at the heart of our understanding of God and humanity and contributes to our entire worldview. This study focuses on a long-standing debate between two competing views on God's eternity: one focused on God's absolute timelessness in classical theism, and the other on God's temporal everlastingness in contemporary panentheism. In contrast to both of these well-worn options, this book presents an alternative Trinitarian analogical understanding of God's eternity and its relation to time.

especially through a critical reflection on Karl Barth's and Hans Urs von Balthasar's engagement of the issue. This analogical approach based on the dynamic and dramatic concepts of God's being in relation and of the Triune God's communicative action in eternity and time has the potential to resolve the debate between absolute timeless eternity and temporal everlasting duration.
