Goddess Adele Getty, 1990 Beginning with the Paleolithic Age and drawing on ancient Greek Chinese Native American and Near Eastern cultures Adele Getty portrays the myriad historical and mythological perspectives of the female archetype Illustrated The Christian Goddess Bonnie Gaarden, 2011-04-29 The Christian Goddess Archetype and Theology in the Fantasies of George MacDonald examines this British Victorian writer's employment of female figures to represent Deity Such symbolism is extremely unusual for a Christian author of this period and anticipates the efforts of many modern theologians to develop an image of God as Mother Bonnie Gaarden reads the goddess figures in MacDonald's fantasies as both archetypes of the collective unconscious and as emblems articulating MacDonald's unique Christian theology which is Trinitarian Neo Platonic mystical and universalist The goddesses become the central figures around which the author develops her interpretations of MacDonald's adult fantasy novels his children's books and some of his fairy tales These readings discover MacDonald's ideas about God and the nature of good and evil models of spiritual and psychological development that foreshadow the theories of Carl Jung and Eric Neumann and acerbic commentary on the values and customs of Victorian society and religion According to *The Christian Goddess* MacDonald's Romantic belief in God's self revelation in Nature led him to create Nature mothers such as the Green Lady in *The Golden Key* and Lilith's Eve which evoke both the Great Mother archetype described by Eric Neumann and the modern neopagan Great Mother as developed in the works of James Frazer Robert Graves and Marija Gimutas MacDonald dramatized his view of evil and its cure in the title character of Lilith a Terrible Mother archetype historically embodied in the Hindu goddess Kali MacDonald's notion of the world as Keat's vale of Soulmaking also elaborated by religious philosopher John Hick is conveyed by Magic Cauldron archetypes in *The Wise Woman* *The Gray Wolf* and Lilith Muse figures in *Phantastes* and *At the Back of the North Wind* express MacDonald's conviction that a right imagination is the voice of God while Divine Children in *The Wise Woman* and *The Golden Key* communicate his belief that true childhood is the Divine nature The great grandmother in the *Princess* books a personification of the multi dimensional activity of Divine Wisdom springs from the Judeo Christian Sophia and the classical Athena while Kore figures in *The Princess* and the Goblin Lilith and *Phantastes* represent the transforming descents of Persephone and Christ This book shows MacDonald's fantasies as a chronological bridge anchored in the traditions of the Hebrew Bible and the New Testament incorporating the teachings of Christian mysticism and theistic Romanticism and linking to the contemporary concerns in Western society that have given birth to the New Age The Christian goddess portrayed in these fantasies may strike the reader as a Deity whose time has come *Milk and Honey* Sarah Malena, David Miano, 2007 From the Foreword In a very short stretch of years the Judaic Studies Program at the University of California San Diego has developed into one of the most important centers for teaching and research in biblical studies in ancient Near Eastern and biblical archaeology and more generally in Judaic studies The program now rivals far older centers of study in

Roach, 2003-01-30 This brief but ambitious book explores our relationship with nature through the imagery we use when we talk about Mother Nature Employing the critical tools of religious studies psychology and gender studies Catherine M Roach examines the various manifestations of nature as mother and what that idea implies for the way we approach the natural world Part One Nature as Good Mother discusses the notion that nature is or is like a beneficent and nurturing mother who provides and maintains life In studying the green slogan Love Your Mother Roach questions the effects for women and for the environment of imputing female gender to nature She asks us to look at the associations that motherhood and mothering carry within a culture still shaped by patriarchy She notes the danger of such an apparently pro environmental slogan if mother evokes the bountiful self sacrificing provider who herself requires no care Part Two Nature as Bad Mother looks at the contrary notion of nature as a violent threatening and wrathful mother This image arises most often when humans and technology are depicted as masters of unruly nature Here Roach draws on theological reflection to analyze this ambivalence toward nature manifested in a fantasy that casts humans as gods She explores the contributions of eco theology and eco psychology to a heart of darkness perspective Finally Part Three Nature as Hurt Mother looks at possibilities and pitfalls of environmental healing inherent in the image of nature as a mother we have wounded and now

seek to heal **A Comparative View of Religions** Johannes Henricus Scholten, 2022-09-04 In *A Comparative View of Religions* Johannes Henricus Scholten embarks on an ambitious scholarly journey presenting a meticulous analysis of the world's major religious traditions. As a work of comparative theology, the book delves into the essence of religious beliefs, their historical developments, and the underlying similarities and distinctions among various faiths. The literary style is analytical and methodical, mirroring the academic vigor of Scholten's era and situating itself within the broader nineteenth-century intellectual context of religious studies, a time when scholars began to systematically explore the phenomenon of religion through a critical rather than purely doctrinal lens. Johannes Henricus Scholten, a theologian of high repute, is firmly rooted in the Dutch Reformed tradition. His insightful perspectives in this book are likely shaped by his own extensive study of theology and philosophy, as well as his keen interest in the emerging field of comparative religion. Scholten's intellectual ambition is reflected in his endeavor to understand and articulate the complex interplay between different religious systems and the shared human quest for spiritual understanding. *The Comparative View of Religions* is highly recommended for students of theology, scholars of comparative religion, and intellectually curious readers. This edition, thoughtfully reproduced by DigiCat Publishing, invites contemporary audiences to engage with Scholten's venerable work, providing a crucial perspective in the ongoing dialogue between faiths and the multifaceted study of religion. Readers will find in Scholten's treatise an enlightening guide through the rich landscape of world religions and an enduring testament to humanity's diverse spiritual heritage.

A Concordance to the Writings of William Blake David V. Erdman, 1967 *Masculine Shame* Mary Y. Ayers, 2013-03-01 How does the image of the succubus relate to psychoanalytic thought? *Masculine Shame: From Succubus to the Eternal Feminine* explores the idea that the image of the succubus, a demonic female creature said to emasculate men and murder mothers and infants, has been created out of the masculine projection of shame and looks at how the transformation of this image can be traced through Western history, mythology, and Judeo-Christian literature. Divided into three parts, areas of discussion include the birth of civilization and the evolution of the succubus; the image of the succubus in the writings of Freud and Jung; the succubus as child-killing mother to the restoration of the eternal feminine. Through a process of detailed cultural and social analysis, the author places the image of the succubus at the very heart of psychoanalytic thought, highlighting its presence in both Freud's Medusa and Jung's visions of Salome. As such, this book will be of great interest to all those in the fields of analytical psychotherapy and psychoanalysis.

The Myth of the Goddess Anne Baring, Jules Cashford, 1993-03-25 A comprehensive, scholarly accessible study in which the authors draw upon poetry and mythology, art and literature, archaeology and psychology to show how the myth of the goddess has been lost from our formal Judeo-Christian images of the divine. They explain what happened to the goddess when and how she was excluded from western culture and the implications of this loss.
