cultural expressions it generated While understanding the specificity of Hong Kong's situations The Appearing Demos also comments on some global predicaments we are facing in the midst of neoliberalism and populism It directs our attention from state based sovereignty to city based democracy and emphasizes the importance of participation and cohabitation The book also examines how the ideas of Hannah Arendt are useful to those happenings much beyond the political circumstances that gave rise to her theorization The book pays particular attention to the actual intersubjective experiences during the protest These experiences are local fragile and sometimes inarticulable therefore resisting rationality and debates but they define the fullness of any individual and they also make politics possible Using the Umbrella Movement as an example this book examines the freed political agents who constantly take others into consideration in order to guarantee the political realm as a place without coercion and discrimination In doing so Pang Laikwan demonstrates how politics means neither to rule nor to be ruled and these movements should be defined by hope not by goals
