The Jewish Choice: Unity or Anti-Semitism Michael Laitman, 2019-12-22 The Jewish Choice Unity or Anti-Semitism is like no other book you have ever read about Jews about history or about anti-Semitism As its title suggests it draws a direct link between

Jewish unity and a rise in anti-Semitism including the current wave. Assuming such a correlation is so extraordinary you could easily brush it off as a provocation were it not documented in hundreds of books, essays, and letters throughout history. Beginning in ancient Babylon and ending in America, Babylon's modern counterpart, the author masterfully draws parallels and connects the dots of history like none have done before. By the end of the book, you will know the reason for the oldest hatred, how it can be dissolved, and how Jews and non-Jews alike will benefit as a result. **Embracing the Covenant** Rabbi Allan L. Berkowitz, Patti Moskovitz, 2011-11-23

This book is a practical and inspirational companion to the conversion process for Jews by Choice and their families. Written primarily for the person considering the choice of Judaism, it provides highly personal insights from over 50 people who have made this life-changing decision. But it also will speak to their families, the non-Jewish family that provided his or her spiritual beginnings, and the Jewish family which receives the convert and help them understand why the decision was made. **Critical Race Theory and the Struggle at the Heart of Legal Education** Paul Zwier, 2023-09-21

This book is an examination of the reception of critical race theory (CRT) in America's legal education system. Critical race theory has been roiling legal education since the aftermath of Obama's presidency. The killings of unarmed Black people fueled Black Lives Matter (BLM) protests in law schools, which created a sense of urgency behind the plea for the law to do more to stop the killings of unarmed Black people. Some BLM-led protests called for faculty and administrators to be fired if they didn't act. There has been an upsurge of states legislating against the teaching of CRT, and law schools are struggling to respond. How should legal education view CRT? What are the neutral unifying values in the law that offer hope in the fight to alleviate the wave of racism that seems to continually batter law schools and society as a whole? This book looks for answers and encourages the recommitment to the foundationalist beliefs of free speech, equality, and the due process of law. Commandments and Concerns Michael Rosenak, 2011-01-01

In this cutting-edge study, Michael Rosenack provides a new understanding of the challenges inherent in teaching Judaism today. His ground-breaking theories are based on close examination of religious experience in individuals' lives, consulting sources from all Jewish denominations from Israel and the Diaspora and from the non-Jewish world. Rosenack uses his research and a wealth of academic theories to formulate and present proposals for an honest new approach to teaching religion in our contemporary secular world. *Models of God and Alternative Ultimate Realities* Jeanine Diller, Asa Kasher, 2013-06-13

The envisioned volume is a collection of recent essays about the philosophical exploration, critique, and comparison of a) the major philosophical models of God, gods, and other ultimate realities implicit in the world's philosophical schools and religions, and of b) the ideas of such models and doing such modeling per se. The aim is to identify exactly what a model of ultimate reality is, create a comprehensive and accessible collection of extant models, and determine how best philosophically to model ultimate reality if possible and desirable.
