organizations of Lesbian Bisexual and Trans persons were established. They were short lived but prepared the ground for a more comprehensive LBT rights movement after the democratic opening of society in 1998. From 2000 to 2015 the visibility of the movement grew until a vicious state sponsored backlash set in driven by majoritarian fundamentalist Islamist groups. Saskia Wieringa tracks the movement's progress and explores the persistence of the butch femme model of relationships, the proliferations of identities, family violence and conversion therapy, religion and the anti LGBT campaign. In its insistence on the local dynamics of this movement, the book aims to debunk the idea that homosexuality is a Western import. Chapters deal with the many religious and secular phenomena that are linked with gender diversity and same sex relations traditionally and the erasure of many of these traditions is explained using the concept of postcolonial amnesia. *A Political Biography of the Indonesian Lesbian Bisexual and Trans Movement* is also a contribution to the growing literature on decolonization studies pointing out that its dynamics, its historical course and its present condition are different as they are from the dominant Western view on a global LGBT movement. It needs to be considered as valuable as accounts of Western LGBT histories are. **Shaman and Sage** Michael Horton, 2024-05-28. The first volume of Michael Horton's magisterial intellectual history of spiritual but not religious as a phenomenon in Western culture. Discussions of the rapidly increasing number of people identifying as spiritual but not religious tend to focus on the past century. But the SBNR phenomenon and the values that underlie it may be older than Christianity itself. Michael Horton reveals that the hallmarks of modern spirituality: autonomy, individualism, utopianism and more have their foundations in Greek philosophical religion. Horton makes the case that the development of the shaman figure in the Axial Age, particularly its iteration among Orphists, represented a divine self. One must realize the divinity within the self to break free from physicality and become one with a panentheistic unity. Time and time again this tradition of divinity hiding in nature has arisen as an alternative to monotheistic submission to a god who intervenes in creation. This first volume traces the development of a utopian view of the human individual: a divine soul longing to break free from all limits of body, history and the social and natural world. When the second and third volumes are complete, students and scholars will consult *The Divine Self* as the authoritative guide to the spiritual but not religious tendency as a recurring theme in Western culture from antiquity to the present. **The Power of Disturbance** Sara Fortuna, 2017-07-05. *Aracoeli* 1982 was the last novel written by Elsa Morante. 1912-85, one of the most significant Italian writers of the twentieth century. The journey, both geographical and memorial, of a homosexual son in search of his dead mother is a first person narrative that has puzzled many critics for its darkness and despair. By combining scholars from different disciplines and cultural traditions, this volume re-evaluates the esthetical and theoretical complexity of Morante's novel and argues that it engages with crucial philosophical and epistemological questions in an original and profound way. Contributors explore the manifold tensions staged by the novel in connection with contemporary philosophical discourse from feminist/queer to political theory to psychoanalysis and authors such as Emilio Gadda, Pier Paolo Pasolini and Pedro Almodóvar. *The Power of*

Disturbance shows that by creating a hallucinatory representation of the relationship between mother and child Aracoeli questions the classical distinction between subject and object and proposes an altogether new and subversive kind of writing

The Man Who Could Fly Michael Grosso, 2015-12-14 St Joseph of Copertino began having mystical visions at the age of seven but it was not until he began practicing his faith as a Franciscan priest that he realized the full potential of his mind's power over his body he was able to levitate Throughout his priesthood St Joseph became famous for frequent levitations that were observed on hundreds of occasions and by thousands of witnesses including many skeptics Michael Grosso delves into the biography of the saint to explore the many strange phenomena that surrounded his life and develops potential physical explanations for some of the most astounding manifestations of his religious ecstasy Grosso draws upon contemporary explorations into cognition the relationship between the human mind and body and the scientifically recorded effects of meditation and other transcendent practices to reveal the implications of St Joseph's experiences and abilities

On Beheading Amalendu Misra, 2022-09-08 Beheading is not an uncommon undertaking As a particularized physical violence it has been practiced by all societies and civilizations at some point in their history In fact for millennia public beheadings around the world were routine In contemporary international society some states and many non state actors regularly engage in this undertaking This begs the obvious question why put a human being through this unimaginable cruelty While the idea of execution by decapitation appears visceral and horrific it has always been grounded in cultural religious and political contexts If contemporary history is any proof the enterprise of beheading a fellow human being appears to be making a comeback in certain religious and political landscapes A question of enormous intellectual importance the phenomenon of beheading is understudied There have been many explanations surrounding specific forms of beheading through the ages However no inclusive study has engaged with it in its entirety Primarily a philosophical reflection On Beheading is interdisciplinary in nature it freely cuts across various disciplines within the broad framework of the social sciences It uses a vast array of empirical evidence from anthropology literature jurisprudence and religion to build a discourse and narrative that brings this subject under one intellectual umbrella
