**Yawl Pressed To Be A Wife, and Haven't Mastered Being A WOMAN Yet TJ** , This book is going to break the internet One thing I do know for sure is people don t really want to hear the truth especially women They already live in their own fantasy worlds This is not an attack on women but it is more a commentary about the world that we live in now Times have changed since I was a kid growing up and in a lot of cases not for the better This definitely might be a best seller depending on the level of curiosity of inquiring minds I m definitely putting my best foot forward I m pretty sure a lot of women are upset at the simple fact that I have chosen to even bring up this topic of conversation But this is what I do I have been banned from several groups just for mentioning that members of the female species are not perfect But in reality we all make mistakes and the thing that really separates us as individuals is how we choose to move forward from those incidents Pressure can either bust pipes or make diamonds It all comes down to our nature and our nurturing The seed was planted along time ago and our parents did whatever they could to make us either productive citizens or menaces to our society Now we are free to roam this land as adults making daily decisions And this culture has created a generation that does not respect it s male species Some of their fathers have let them down if they were even present at all Then there is the media and music influence which have produced an entire generation of females that want to be strippers escorts and porn stars Kim Kardashian has created an empire off of her leaked sex tape This is just one example of many that has lead us to where we are now Their household and upbringing play a major role in how they relate to this world and the people in it I m also interested in knowing if these females in the modern area are still interested in actually getting married and what their motives are for getting hitched Call me skeptical but I m not falling for a big butt and a smile which is the signature sign of a gold digger because the marriage contract generally favors the female species I

worked too hard for everything that I have accumulated over the years and I would hate to fall victim to a female with less than honorable motives taking half of everything that I own Of course women have a very different perspective on this aspect of the marital contractual obligation if things don t work out for the happy couple But I refuse to entertain something as serious as getting married with a grain of salt I m definitely using my brain to the fullest before I would make any rash decisions I guarantee that this will take a serious turn in the right and wrong directions and it will be one for the ages Put on your seatbelt and prepare for a very wild ride which will be very similar to a rodeo ride on a wildly bucking bull who has just seen the red flag and is charging wildly with the anticipation of total destruction of the matador And just in case you got lost on this metaphor I am the matador and the bull is the on slot of the women who are running up to confront me with passion and fury after I engage them with truth and logic I guarantee that this book will not disappoint my audience but I will definitely get some negative feedback But that is to be expected in this cancel culture [Going Deep Boxed Set \(Books 1-4\)](#)

Boys revealed the powerful bond between the teenaged princes and how it strengthened even more in the wake of their mother's tragic death. Now twenty years later, Queen Elizabeth II is in her mid nineties, Prince Charles is in his seventies, and all eyes are turned increasingly toward William and Harry again. Christopher Andersen picks up where he left off, covering everything that has happened to the brothers as they have grown up, gotten married to two remarkable women, and had children, all while facing continual waves of controversy and questions about the ways their relationship has shifted. Andersen examines how the Queen's behind-the-scenes maneuvering to mold her grandsons in the Windsor image after Diana's death, and her expectations of William as the future king, played out. He questions whether the brothers' famously close relationship can survive Harry's departure from the Royal Family, the first time this has happened since their great-great-uncle King Edward abdicated the throne to marry a divorcee. He delves into the impact sisters-in-law Kate and Meghan have had on each other, as well as on their princes, and how marriage and fatherhood have changed the brothers, and in some ways also driven a wedge between them. Andersen also looks with an honest eye at how the princes and their wives have been continuously buffeted by scandal, including headline-making allegations of bullying, racism, betrayal, and emotional abuse that has pushed more than one royal to the brink of self-destruction. Based on in-depth research and with his fascinating and insightful *The Christian Science Monitor* writing, Andersen leaves no stone unturned in this intimate and riveting look into the private lives of the world's most famous princes.
