delivers a sobering report card Institutions and investors favor programs that scale up quickly at the expense of true innovation Learning technologies even those that are free do little to combat the growing inequality in education Technology is a phenomenal tool in the right hands but no killer app will shortcut the hard road of institutional change I m not sure if Reich is as famous outside of learning science and online education circles as he is inside He should be Reading and talking about Failure to Disrupt should be a prerequisite for any big institutional learning technology initiatives coming out of COVID 19 Inside Higher Ed The desire to educate students well using online tools and platforms is more pressing than ever But as Justin Reich illustrates many recent technologies that were expected to radically change schooling have instead been used in ways that perpetuate existing systems and their attendant inequalities Science **Pearl Harbor Attack** United States.
