From Landfill Gas to Energy Vasudevan Rajaram, Faisal Zia Siddiqui, Mohd Emran Khan, 2011-12-15 Converting old landfills to energy producing sites while capturing emitted greenhouse gases has faced numerous technical financial and social challenges and developments lately Also the re mining of landfills to recover useful land in dense urban areas and proper landfill closure has been a subject of discussion and investigation Designed as **ASME COGEN TURBO Power**, 1993 **Intermodal Transshipment Technologies -- an Overview** Johan Woxenius, 1998 *Return and Circular Migration in Contemporary European History* Sarah Oberbichler, Eva Pfanzelter, Valerio Larcher, 2024-10-21 Migration is often viewed as a one way process from the country of origin to the place of arrival but recent academic research shows that this presumption is fundamentally flawed Migration has always been characterized by return movements as a glance into history reveals from transatlantic returns in the 19th century to the back and forth of migrant workers and refugees in the 20th century and numerous other forced and voluntary migrations This volume invites to reconceptualize studies in migration history by shifting away from the focus on going away to a more complex one revolving around a plurality of issues of leaving returning moving on and traveling again belonging and fluid identities in third spaces Structured in three parts the contributions in this volume shed light on the close connection between power dynamics and return migration as well as how migration processes shape individual planning abilities social relationships and complex spatial dynamics The methodological part of the volume further encourages readers to reflect on growing data collections and possibilities for digital research on return migration *MotorBoating*, 1979-06 *Repowering Humboldt with Community-scale Renewable Energy* Jim Zoellick, Redwood Coast Energy Authority, Schatz Energy Research Center, Blue Lake Rancheria (Calif.), 2016 *Proceedings on 18th International Conference on Industrial Systems - IS'20* Bojan Lalic, Danijela Gracanin, Nemanja Tasic, Nenad Simeunović, 2022-05-23 This book proposes theoretically developed and practically tested solutions for manufacturing and business improvements achieved in the period between two conferences It enables presentation of new knowledge and exchange of practical experience in industrial systems engineering and management It brings together prominent researchers and practitioners from faculties scientific institutes and different enterprises or other organizations This is the 18th edition of the conference The Department of Industrial Engineering and Management at the Faculty of Technical Sciences in Novi Sad organizes a scientific conference on industrial systems engineering and management field of science and practice once in three years *Demonstration of Combined Heat and Power with Thermal Storage for Modern Greenhouses* Stephen Martz, Keith Davidson, Rod Hite, Southern California Gas Company, 2016 **Invention** James Dyson, 2021-09-07 Dyson has become a byword for high performing products technology design and invention Now James
