The Grant Writing And Crowdfunding Guide For Young Investigators In Science Jean-luc Lebrun, Justin Lebrun, 2017-06-27 The *Grant Writing and Crowdfunding Guide* prepares you the young investigator to step up to the challenge of funding your own research And what a challenge Writing a successful grant demands much more than a first class inquisitive scientific mind As you will soon discover raw talent may keep you from drowning in the new world of grants but staying afloat and learning how to swim are two very different things This book presents the best strategies you should adopt prior to taking the grant plunge It will help you draft a reasonable budget plan assemble a winning grant team write a stellar pre proposal and reassure the funding agencies that the financial risk they take by investing in you will produce great returns The book also helps you write a grant title abstract and a specific aims section that highlight the significance impact and innovativeness of your project It presents specific tools to catch problems early and avoid rejection It even covers a source of funding you likely have never considered the public Crowdfunding not only helps you collect preliminary data within weeks but also lets you share your passion with people who want to see you succeed New investigators are usually lost when attempting to write their first grant application They need a compass to run through the grant maze This book is that compass It supplements the work of your mentor and reviews the practices of your grantor and grant reviewers Examples are taken from two of the largest grantors in the world NIH and NSF and their practices are applicable to other science funding agencies worldwide Better to

be young and funded than old and unfunded

Revenue Generation Strategies: Leveraging Higher Education

Resources for Increased Income Jeffrey W. Alstete, 2014-12-31 Achieving successful financial viability by broadening revenue sources is one of the most important issues facing colleges and universities today Increasing operating costs along with the reliance on traditional student tuition government support and philanthropy are challenging universities One way administration leaders and faculty are meeting this challenge is to establish supplemental revenue streams from a variety other sources such as continuing education credit and noncredit certificates degree completion and upgrade programs study abroad domestic and international branch campuses distance education auxiliary services technology transfer and partnerships or alliances with other organizations These types of activities formerly considered secondary ventures are now integral to lasting and responsible financial strategic planning This monograph examines a wide variety of supplemental income options and opportunities as well as examples of restructuring financial planning schema While not negating the value of traditional college education these new revenue sources in fact lead to greater institutional effectiveness This is the 1st issue of the 41th volume of the Jossey Bass series ASHE Higher Education Report Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication

education has served to prepare students to be active participants in a democratic society During a time of great civil upheaval following the tumultuous elections of 2016 and 2020 the outbreak of the COVID 19 pandemic and mass demonstrations following the murders of George Floyd and Breonna Taylor higher education may be the only institution left to be both responsible for and responsive to society at large Public trust in the federal government is at near record lows but confidence in higher education has decreased more than any other U S institution since 2015 In a time where public opinion is quickly changing for the better or the worse higher education must respond to this decline in trust in it as an institution but also the decline in the belief that a college degree is worth the time and cost Higher education was founded on the idea that colleges would prepare citizens for a life of public service but they have quickly changed to a business model that largely puts profits over people Practitioners of higher education must respond to this lack of trust and the pressures of preparing a 21st century workforce while battling the threats of a pandemic declining enrollment budget destabilization and increased regulation The Proper Role of Higher Education in a Democratic Society reexamines the purpose of higher education during rapidly changing times offers practical advice and best practices to reclaim higher education s most fundamental mission and argues that if higher education is called to prepare students to serve a government by the people the people must be prepared to govern effectively This book provides resources and suggestions for restoring the public faith in higher education by connecting the educational experience with civic engagement outcomes Diverse perspectives presented in this book challenge traditional notions that civic engagement is handled by one office on a college campus and is only discussed during a presidential election Covering everything from civic engagement to diversity perspectives this book is ideal for higher education practitioners and those interested in promoting civic engagement and democratic participation improving assessment or accreditation standards using a civic engagement perspective and infusing civic engagement to diversity conversations on campus
