The Oxford History of Western Art Martin Kemp, 2000 The Oxford History of Western Art is the new authority on the development of visual culture in the West over the last 2700 years from the classical period to the end of the twentieth century OHWA is an innovative and challenging reappraisal of how the history of art can be presented and understood None of the currently available general histories of art offers the wealth of perspectives and cross media references of this book Through a carefully devised modular structure readers are given insights not only into how and why works of art were created but also how works in different media relate to each other across time Here uniquely is not the simple linear story of art but a rich series of stories told from varying viewpoints The founding principle of the book has been to use carefully selected groupings of pictures to give readers a sense of the visual texture of the various periods and episodes covered The 167 illustration groups supported by explanatory text and picture captions create a sequence of visual tours not merely a procession of individually great works viewed in isolation but juxtapositions of significant images that powerfully convey a sense of the visual environments in which works of art need to be viewed in order to be understood and appreciated The aim throughout has been to make the shape and nature of these visual presentations a stimulating and rewarding experience allowing readers to become active participants in the process of interpretation and synthesis Another key feature of the narrative is the re definition of traditional period boundaries Rather than relying on conventional labels such as Medieval Renaissance Baroque etc five major phases of significant historical change are established that unlock longer and more meaningful continuities The art of classical antiquity from c 600 BC to the fall of Rome in AD 410 The establishment of visual culture in Europe from 410 to 1527 the sack of papal Rome European visual regimes from 1527 to 1770 The era of revolutions 1770 to 1914 Modernism and after 1914 to 2000 This new framework shows how the major religious and secular functions of art have been forged sustained transformed revived and revolutionized over the ages how the institutions of Church and State have consistently aspired to make art in their own image and how the rise of art history itself has come to provide the dominant conceptual framework within which artists create patrons patronize collectors collect galleries exhibit dealers deal and art historians write The text has been written by a team of 50 specialist authors working under the direction of Professor Martin Kemp one of the UK s most distinguished art historians Whilst bringing their own expertise and vision to their sections each author was also asked to relate their text to a number of unifying themes and issues including written evidence physical contexts patronage viewing and reception techniques gender and racial issues centres and peripheries media and condition the notion of art and current presentations Though the coverage of topics focuses on European notions of art and their transplantation and transformation in North America space is also given to cross fertilizations with other

traditions including the art of Latin America the Soviet Union India Africa and Afro Caribbean Australia and Canada Professor Kemp and his team similarly deal generously with the applied arts and reproductive media such as photography and prints The result is a vibrant vigorous and revolutionary account of Western art serving both as an inspirational introduction for the general reader and an authoritative source of reference and guidance for students

Théodore Rousseau and the Rise of the Modern Art Market Simon Kelly, 2021-03-25 The 19th century in France witnessed the emergence of the structures of the modern art market that remain until this day This book examines the relationship between the avant garde Barbizon landscape painter Th odore Rousseau 1812 1867 and this market exploring the constellation of patrons art dealers and critics who surrounded the artist It argues for the pioneering role of Rousseau his patrons and his public in the origins of the modern art market and in so doing shifts attention away from the more traditional focus on the novel careers of the Impressionists and their supporters Drawing on extensive archival research the book provides new insight into the role of the modern artist as professional It provides a new understanding of the complex iconographical and formal choices within Rousseau s work rediscovering the original radical charge that once surrounded the artist s work and led to extensive and peculiarly modern tensions with the market place

The Impressionist Print Michel Melot, 1996-01-01 A print can sometimes tell us more than a painting about the history of art Michel Melot illustrates his thesis in this book analysing relationships between artists the art market the critics collectors and political institutions This fresh approach reveals Impressionism not as a sort of miracle but as a response to economic and social upheaval This original view of a key movement in the history of art allows the reader to understand its decisive effect on all the subsequent generations who have contributed to maintaining the tradition of the belle epreuve

The Conspiracy of Modern Art Luiz Renato Martins, 2017-03-06 In The Conspiracy of Modern Art the Brazilian critic and art historian Luiz Renato Martins presents a new account of modern art from David to Abstract Expressionism The once vibrant debate on these touchstones of modernism has gone stale Viewed from the Sao Paulo megalopolis the art of Paris and New York embodying Revolution Thermidor Bonapartism and Bourgeois Triumph once more pulsates in tragic key Equally attentive to form and politics Martins invites us to look again at familiar pictures In the process modern art appears in a new light These essays largely unknown to an English speaking audience may be the most important contribution to the account of modern painting since the important debates of the 1980s

Manet Manette Carol M. Armstrong, Edouard Manet, 2002-01-01 Manet a founding father of modernism is one of the towering figures of 19th century art In this volume Carol Armstrong looks closely at Manet s works to uncover a view not only of the artist but also of modernity itself As she places his art within frameworks of colour the feminine Other the Manette in Manet and consumerism Armstrong seeks to expand and revise our understanding of this artist as a painter of modern life

The Barbizon School & the Origins of Impressionism Steven Adams, 1994-07-21 The key painters associated with the Barbizon School Corot Millet Rousseau and Courbet are among the finest landscape artists of the nineteenth century From their base at the village of Barbizon in the Forest of Fontainebleau just outside Paris they painted nature as they saw it anticipating many of the techniques and effects of Impressionism In this survey Steven Adams re evaluates French landscape painting in the half century before Impressionism placing this return to nature against the background of the rapid industrialization and political crises of the period

The Politics of Sex, Race and Working-Class Slang in Late Second Empire French Caricature Russell Stephens, 2025-08-11 This study examines caricatures as they appeared within popular Parisian magazines in mid 19th century France at the time of the 1867 World s Fair Chapters compare the comic mockery of several of the most important satirists of this time including Am d e de No or Cham 1818 1879 as he was more popularly known and Honor Daumier 1808 1879 A major theme within the analysis is how these caricaturists secretly used argot street slang as documented in two slang dictionaries by Parisian litterateur Alfred Delvau 1825 1867 within their comic images to carry hidden encrypted messages in order to evade the censorship of the day The book focuses primarily on caricatures of Chinese visitors who were part of the 1866 diplomatic visit to Paris and images of Chinese at the 1867 Exposition Universelle showing how the satires which were published by Cham used argot to create highly sexualised images that were often racist in nature In contrast the volume proposes that Daumier used slang in his caricatures to challenge racism and to make secret reference to current political leaders and politics The book will be of interest to scholars working in art history visual culture media studies and communication studies
