Ronald Berman noted Fitzgerald scholar makes it clear that accepted interpretations of *The Great Gatsby* and of Fitzgerald's work in general must be changed. Berman demonstrates that Fitzgerald wrote within a vast dialectic relating the ideas of the twenties to those of the old America described in so many of his works. **The Great Gatsby**, 2011-03

Approaches to Teaching Fitzgerald's *The Great Gatsby* Jackson R. Bryer, Nancy P. Vanarsdale, 2009 Who is this Gatsby anyhow? Answering that question voiced by one of the book's characters is fundamental to teaching F. Scott Fitzgerald's *The Great Gatsby*. Although there is no simple answer, classroom analysis of this classic American novel can lead to a rich exploration of the colorful yet contradictory period Fitzgerald dubbed the Jazz Age. The novel also prompts considerations of novelistic technique specifically point of view, characterization, and narrative structure. This volume aims to give instructors of *The Great Gatsby* multiple tools and strategies for teaching the novel and for introducing students to the culture of the 1920s. Part 1 Materials reviews the novel's composition history and the scholarly resources related to the novel. In part 2 Approaches, contributors demonstrate a range of frameworks that usefully inform teaching from the new historicism to feminist and gender studies to narrative theory. They also examine the novel's complex artistry, variety of motifs and symbol patterns, and cultural and social influences such as the era's changing racial attitudes, the rise of a new suburban culture, and the dichotomy of East versus West in America. **The Novel Project**. Graeme Simsion, 2022-03-01 The no-drama novel writing method behind Graeme Simsion's global bestsellers. **Ideas Plus**, 1984 **Dwelling in Days Foregone** Weronika Łaszkiewicz, Zbigniew Maszewski, 2016-04-26 This volume brings together papers that examine American literary texts and cultural phenomena as manifestations and/or expressions of nostalgia. Inspired by Svetlana Boym's seminal study *The Future of Nostalgia* (2001) the authors of the sixteen chapters demonstrate that this sentiment proves to be a useful key in the process opening up new interpretive vistas and enabling new critical insights. The experience that comes under scrutiny in these texts is informed by the fundamental division into a certain present which is the domain of insatiability and a certain past the locus of at-homeness often irretrievably lost.

Mall Maker M. Jeffrey Hardwick, 2015-08-18 The shopping mall is both the most visible and the most contentious symbol of American prosperity Despite their convenience malls are routinely criticized for representing much that is wrong in America sprawl conspicuous consumption the loss of regional character and the decline of Mom and Pop stores So ubiquitous are malls that most people would be surprised to learn that they are the brainchild of a single person architect Victor Gruen An immigrant from Austria who fled the Nazis in 1938 Gruen based his idea for the mall on an idealized America the dream of concentrated shops that would benefit the businessperson as well as the consumer and that would foster a sense of shared community Modernist Philip Johnson applauded Gruen for creating a true civic art and architecture that enriched Americans daily lives and for decades he received praise from luminaries such as Lewis Mumford Winthrop Rockefeller and Lady Bird Johnson Yet in the end Gruen returned to Europe thoroughly disillusioned with his American dream In Mall Maker the first biography of this visionary spirit M Jeffrey Hardwick relates Gruen s successes and failures his work at the 1939 World s Fair his makeover of New York s Fifth Avenue boutiques his rejected plans for reworking entire communities such as Fort Worth Texas and his crowning achievement the enclosed shopping mall Throughout Hardwick illuminates the dramatic shifts in American culture during the mid twentieth century notably the rise of suburbia and automobiles the death of downtown and the effect these changes had on American life Gruen championed the redesign of suburbs and cities through giant shopping malls earnestly believing that he was promoting an American ideal the ability to build a community Yet as malls began covering the landscape and downtowns became more depressed Gruen became painfully aware that his dream of overcoming social problems through architecture and commerce was slipping away By the tumultuous year of 1968 it had disappeared
