Fernandez,2021-01-14 From twilight in the Himalayas to dream worlds in the Serbian state this book provides a unique collection of anthropological and cross cultural inquiry into the power of rhetorical tropes and their relevance to the formation and analysis of social thought and action through a series of ethnographic essays offering in depth studies of the human imagination at work and play around the world

**Renaissance Man** Tommi Alho,Jason Finch,Roger D. Sell,2019-11-15 Here friends of Anthony W Johnson honour him as a re embodiment of the polymathic artist scholar figure once observable in Ben Jonson on whom he has done some of his most distinctive work Part I of the book reflects his strong grounding in English literature and culture of the seventeenth century with essays not only on Ben Jonson but also on university drama on grammar school drama and on humanist literary taste Part II responds to his pioneering flights of culture imagological time travel to other periods with essays on riddles through the ages on Matthew Arnold s doubts about Homeric pictorialism and on anciently comic elements in George Gissing s urban fiction Part III celebrates his importance both as scholar and artist for the present day with essays extending imagological analysis to the singer Nick Drake to the avant garde Danish poet Morten S kilde and to Sean S Baker s film *Tangerine* plus a climactic celebration of Johnson s own

performances on solo violin and guitar as augmented by self recording      **Literary Communication as Dialogue** Roger D. Sell, 2020-11-15 As traced by Roger D Sell literary communication is a process of community making As long as literary authors and those responding to them respect each other s human autonomy literature flourishes as an enjoyable though often challenging mode of interaction that is truly dialogical in spirit This gives rise to author respondent communities whose members represent existential commonalities blended together with historical differences These heterogeneous literary communities have a larger social significance in that they have long served as counterweights to the hegemonic tendencies of modernity and more recently to postmodernity s well intentioned but restrictive politics of identity In post postmodern times their ethos is increasingly one of pleasurable egalitarianism The despondent anti hedonism of the twentieth century intelligentsia can now seem rather dated Some of the papers selected for this volume develop Sell s ideas in mainly theoretical terms But most of them offer detailed criticism of particular anglophone writers ranging from Shakespeare Ben Jonson and other poets and dramatists of the early modern period through Wordsworth and Coleridge to Dickens Pinter and Rushdie      Monteverdi and the Marvellous Roseen Giles, 2023-09-28 Explores the path breaking interaction between language and music in Monteverdi s madrigals through the provocative poetics of the marvellous      *Acheloios, Thales, and the Origin of Philosophy* Nicholas J. Molinari, 2022-05-12 Through careful analysis of the archaeological record close reading of ancient sources and deep investigations into the languages of our past this study demonstrates the importance of the influence of the cult of Acheloios on Thales fundamentally changing our understanding of the origin of the philosophical experience in 6th century Ionia      *Among Women* Nancy Sorkin Rabinowitz, Lisa Auanger, 2009-06-03 Women s and men s worlds were largely separate in ancient Mediterranean societies and in consequence many women s deepest personal relationships were with other women Yet relatively little scholarly or popular attention has focused on women s relationships in antiquity in contrast to recent interest in the relationships between men in ancient Greece and Rome The essays in this book seek to close this gap by exploring a wide variety of textual and archaeological evidence for women s homosocial and homoerotic relationships from prehistoric Greece to fifth century CE Egypt Drawing on developments in feminist theory gay and lesbian studies and queer theory as well as traditional textual and art historical methods the contributors to this volume examine representations of women s lives with other women their friendships and sexual subjectivity They present new interpretations of the evidence offered by the literary works of Sappho Ovid and Lucian Bronze Age frescoes and Greek vase painting funerary reliefs and other artistic representations and Egyptian legal documents      *The Promise of Not-Knowing* David E. Fredrickson, 2022-04-12 David E Fredrickson asks a key question for interpreters of the New Testament in the twenty first century Do established ways of reading the New Testament need to be challenged and new ones explored His answer is yes but he takes care not to dismiss readers experiences in the previous two millennia He values the readings of the past even as he contests the insights of scholars preachers monks nuns skeptics the devout the disinterested the keenly

interested and all the rest who have tried to make sense of the earliest Christian writings Fredrickson does not want to give an impression of I know better than them But he goes on to say that strange as it sounds not knowing is actually the point of this book More than anything else not knowing is I believe the key to reading the New Testament in the twenty first century Fredrickson claims that the reduction of a text to its usefulness is something a deconstructive approach seeks to avoid That leads to readings in which practicality enjoys a privilege over mystery knowing wins out over not knowing and control triumphs over hope Ultimately his goal in this book is to give mystery hope andnot knowing a chance For Fredrickson the experience of reading is more than coming to know something or receiving information and the more that he has in mind exists in the shock of encountering some other or something that is not easily assimilated to an already known world a familiar horizon or the repeatability of language What if reading the New Testament meant giving an unexpected other a chance to take place and to change the world you thought was an unchangeable given What if we thought of reading as a way of preparing for what postmodernism calls an event

**Chain of Gold** Susan C. Jarratt,2019-11-26 Barred from political engagement and legal advocacy the second sophists composed and performed epideictic works for audiences across the Mediterranean world during the early centuries of the Common Era In a wide ranging study author Susan C Jarratt argues that these artfully wrought discourses formerly considered vacuous entertainments constitute intricate negotiations with the absolute power of the Roman Empire Positioning culturally Greek but geographically diverse sophists as colonial subjects Jarratt offers readings that highlight ancient debates over free speech and figured discourse revealing the subtly coded commentary on Roman authority and governance embedded in these works Through allusions to classical Greek literature sophists such as Dio Chrysostom Aelius Aristides and Philostratus slipped oblique challenges to empire into otherwise innocuous works Such figures protected their creators from the danger of direct confrontation but nonetheless would have been recognized by elite audiences Roman and Greek alike by virtue of their common education Focusing on such moments Jarratt presents close readings of city encomia biography and texts in hybrid genres from key second sophistic figures setting each in its geographical context Although all the authors considered are male the analyses here bring to light reflections on gender ethnicity skin color language differences and sexuality revealing an underrecognized diversity in the rhetorical activity of this period While US scholars of ancient rhetoric have focused largely on the pedagogical Jarratt brings a geopolitical lens to her study of the subject Her inclusion of fourth century texts the Greek novel *Ethiopian Story* by Heliodorus and the political orations of Libanius of Antioch extends the temporal boundary of the period She concludes with speculations about the pressures brought to bear on sophistic political subjectivity by the rise of Christianity and with ruminations on a third sophistic in ancient and contemporary eras of empire
