Interrogating Popular Culture Stacy Takacs, 2014-09-04 *Interrogating Popular Culture* Key Questions offers an accessible introduction to the study of popular culture both historical and contemporary. Beginning from the assumption that cultural systems are dynamic, contradictory and hard to pin down, Stacy Takacs explores the field through a survey of important questions addressing Definitions: What is popular culture? How has it developed over time? What functions does it serve? Method: What is a proper object of study? How should we analyze and interpret popular texts and practices? Influence: How does popular culture relate to social power and control? Identity and disposition: How do we relate to popular culture? How does it move and connect us? Environment: How does popular culture shape the ways we think, feel and act in the world? Illustrated with a wide variety of case studies covering everything from medieval spectacle to reality TV, sports, fandom and Youtube, *Interrogating Popular Culture* gives students a theoretically rich analytical toolkit for understanding the complex relationship between popular culture, identity and society.

The Folkloresque Michael Dylan Foster, Jeffrey A. Tolbert, 2015-11-02 This volume introduces a new concept to explore the dynamic relationship between folklore and popular culture: the folkloresque. With *Folkloresque*, Foster and Tolbert name the product created when popular culture appropriates or reinvents folkloric themes, characters and images. Such manufactured tropes are traditionally considered outside the purview of academic folklore study, but the folkloresque offers a frame for understanding them that is grounded in the discourse and theory of the discipline. Fantasy fiction, comic books, anime, video games, literature, professional storytelling and comedy, and even popular science writing all commonly incorporate elements from tradition or draw on basic folklore genres to inform their structure. Through three primary modes: integration, portrayal and parody, the collection offers a set of heuristic tools for analysis of how folklore is increasingly used in these commercial and mass market contexts. *The Folkloresque* challenges disciplinary and genre boundaries, suggests productive new approaches for interpreting folklore, popular culture, literature, film and contemporary media, and encourages a rethinking of traditional works and older interpretive paradigms.

African Ecomedia Cajetan Iheka, 2021-08-23 In *African Ecomedia*, Cajetan Iheka examines the ecological footprint of media in Africa alongside the representation of environmental issues in visual culture. Iheka shows how, through visual media such as film, photography and sculpture, African artists deliver a unique perspective on the socioecological costs of media production, from mineral and oil extraction to the politics of animal conservation. Among other works, he examines Pieter Hugo's photography of electronic waste recycling in Ghana and Idrissou Mora Kpai's documentary on the deleterious consequences of uranium mining in Niger. These works highlight not only the exploitation of African workers and the vast scope of environmental degradation, but also the resourcefulness and creativity of African media makers. They point to the unsustainability of current practices while acknowledging our planet's finite natural resources. In foregrounding Africa's centrality to the production and disposal of media technology, Iheka shows the important place visual
