Histoire de la langue anglaise. (Introduction). Édouard Le Héricher,1870

Histoire de la langue anglaise André

Crépin,1982

Histoire de la langue anglaise André R. Tellier,1962

Histoire de la langue anglaise René

Huchon,1930 **Histoire de la langue anglaise** René Louis Huchon,1942 *Histoire De La Langue Anglaise* Rene Louis Huchon,1966 **Histoire de la Langue Anglaise V.2** R. Huchon, Histoire de la langue anglaise Edouard Le Héricher,1854 **Englishes around the World** Edgar W. Schneider,1997-06-26

The two volumes of Englishes around the World present high quality original research papers written in honour of Manfred G. Leach founder and editor of the journal English World Wide and the book series Varieties of English Around the World. The papers thematically focus on the field that Manfred G. Leach has helped to build and shape. Volume 1 contains articles on general topics and studies of what might be termed Old Englishes varieties of English that have been rooted in their respective regions for a long time and have been traditional focal points of scholarly study. The first section contains eight general and comparative papers dealing with terminological matters or definitions of core concepts: historical issues, structural comparisons across a wide range of varieties. The second one has nine papers on dialects of English as used in the British Isles covering England, Scotland, Ulster and Ireland, and finally there are four contributions on North American varieties of English including Southern English, African American Vernacular English, Newfoundland Vernacular English and American English in a historical perspective. The thematic scope comprises the levels of lexis, phonology, morphology, syntax, pragmatics and orthography, as well as sociohistorical issues, the question of the evolution and transmission of dialects, various sources of evidence including literary dialect.

English Historical Linguistics. Volume 2 Alexander Bergs, Laurel J. Brinton, 2012-10-01 Histoire de la langue anglaise Michel Taillé, 1997-12-01

Cet ouvrage retrace l'évolution de la langue anglaise depuis quelque mille ans. L'évolution caractérisée par une simplification des formes déclinales et des formes conjuguées mais en même temps par une complexification de la syntaxe et de la phonologie avec un extraordinaire enrichissement du vocabulaire. En connaître l'histoire c'est en saisir la disponibilité et la créativité. C'est comprendre aussi pourquoi elle est la plus utilisée dans le monde d'aujourd'hui. Par ailleurs, ce livre examine tous les aspects de la langue: phonologie, morphologie, lexicologie, sans négliger les débats internes au monde anglophone toujours résolus par l'usage et par la liberté. Après une introduction sur les outils phonétiques et les conditionnements historiques, l'exposé remonte le temps depuis l'internationalisation de l'anglais contemporain jusqu'à sa naissance dans des œuvres d'adaptation au monde occidental chrétien. Rédigé après une longue mise au point sur le terrain, il tient compte du niveau de connaissances préalables des étudiants et présente des exposés systématiques qui leur évitent de se perdre dans le cheveau des faits linguistiques. Le jargon technique est réduit au minimum et de nombreuses suggestions de travaux guident les premiers pas du lecteur en typologie, en graphie linguistique ou en lexicographie. Un lexique alphabétique de près de 2000 termes permet d'exploiter aisément l'abondance des explications tandis qu'une vingtaine de textes de l'an mil 1995 multiplie ces possibilités d'exploration.
