Progress Notes Abraham M. Nussbaum,2024-06-25 A groundbreaking approach to training doctors could transform the future of health care Winner of the Nautilus Book Award by the Nautilus Book Awards Winner of the Ippy Book Award For decades physicians have been trained on the textbook of the body from the corpse in a cadaver lab to the patient in a procedure suite This type of training usually leads them to specialize in specific organs or systems and breeds an increasingly impersonal view of medicine in which the importance of person to person care the hallmark of a good relationship between doctors and patients has been lost In this engrossing narrative you ll meet seven extraordinary students who embarked on a new way to train doctors that attempts to regain what s been lost These medical students follow patients instead of physicians accompanying patients to primary care appointments emergency room visits and even surgical procedures developing deep connections and understanding the intricate interplay between the health of our bodies and the health of our communities They learn the textbook of a community in addition to the textbook of the body Through poignant stories of these seven students and the people they meet as patients Dr Abraham M Nussbaum illustrates the power of becoming a doctor and the possibility of changing the way we train doctors As the students acquire a wealth of knowledge about the human body they also navigate immense challenges and responsibilities Throughout the year they go about their lives find love and start families all while getting to know their patients and their lives Progress Notes follows the evolution of medical education and is a must read for premedical students medical students and medical professionals seeking insight into the changing landscape of their field as well as for readers captivated by medical dramas and the pursuit of transformative care that benefits us all

Notes to Jacqui Ronald A. Tomo Bs Mpa Ccp Cna,2011-12 For years I have wanted to immortalize my thoughts as a handbook for my loving daughter Jacqui A

true testament to humanity and the ability to overcome challenges Having been a polio survivor being stricken in 1953 at 7 months old I had to learn much about survival caring adapting loving leading and so much more As one of the younger survivors of polio vaccine came out a few months after I contracted this deadly and crippling disease I naturally learned quickly about odds and statistics which is to say they re meaningless if you are the one who falls on the wrong side of probability I have survived many things in life and have achieved many things in life polio survivors are known to be over achievers statistically of course I have learned much along the way with both my successes and failures The main thing I learned is how to beat the odds which turned out to be very simple NEVER GIVE UP This book is a compilation of various notes I want my daughter Jacqui to remember even when I m long gone My style of writing is free flowing for easy reading and understanding The chapters in the book have no particular order be it chronological or otherwise Instead they are in the order of my mood and inspiration at the time I sat down at my keyboard I write from the heart as I approach all things in my life My brain shows me the options but my heart makes the decision This has proved to be a very effective approach and has made me successful in many ways I live by a concept that I always knew but the great motivator Anthony Robbins coined or immortalized the best phrase that describes it all Live with Passion So buckle your seatbelts put on your reading glasses relax and enjoy I waited and thought about this project for a long time so I hope you learn something and to my daughter this is what I leave to you as the history of your dad and the guide to life according to Pops **Notes from the Cracked Ceiling**

Anne E. Kornblut, 2011-03-01 In the presidential election of 2008 America seemed ready to elevate a woman to the presidency or vice presidency and with Hillary Clinton and Sarah Palin was on the verge of actually doing so Words like inevitable and phenomenon were in the air and the political and cultural stars seemed to be aligned Why didn t it happen What will it take to make it happen soon In a probing analysis sure to ignite controversy acclaimed White House correspondent Anne Kornblut argues that the optimists are blind to formidable obstacles that still stand in the way of any woman who aims for America s highest political offices And she makes clear exactly which strategies and common assumptions will need to change if a woman intends to break through the highest hardest glass ceiling of all Delving deep inside the Clinton and Palin campaigns Kornblut reveals the strategists mishandling of their candidates as women by failing to strike the right balance between femininity and toughness Clinton s weathering of a series of stinging gender based attacks until accusations of pimping out her daughter Chelsea finally brought her to tears that Barack Obama was celebrated for his historic win in Iowa even though it was not the first time an African American had won a caucus but few noticed when Clinton became the first woman to win a primary in New Hampshire that Palin was chosen solely by men none of whom had experience in running women for office Drawing from exclusive interviews with prominent women in both parties Kornblut pinpoints where politically ambitious American women have gone wrong and what it will take to put them on track to the ultimate prize the presidency Former secretary of state Condoleezza Rice asserts We crossed the bar on African Americans

some time ago I m not quite sure we ve crossed it on women House Speaker Nancy Pelosi remarks on the suit of armor women must don to survive the sexism and viciousness of politics Homeland Security Director Janet Napolitano confronts the false rumors that she is a lesbian and reveals what an invigorating kick in the pants it is to be in politics And California gubernatorial candidate Meg Whitman the former head of eBay compares politics to business It feels to me thus far as less of a meritocracy and more of a popularity contest More of a little bit of an old boys club Kornblut identifies the surprising realities of gender politics such as the harsh treatment female candidates often receive from women voters the gap between the United States and other countries when it comes to the electability of women the mommy penalty that handicaps women candidates with young children and the special appeal that women with law enforcement backgrounds have with voters Notes from the Cracked Ceiling reveals that the highly touted new era of gender equal politics never got as far as was commonly perceived and is now in full retreat It is essential reading for anyone who cares about politics and the limits for women that persist

Godfrey,2023-02-09 University students are typically exposed to a much wider variety of academic sources at university including monographs textbooks journals reports and crucially a much larger proportion of their time is spent on independent academic reading relative to their time in school There are lots of study skills texts which deal with academic writing in some form or other but there are far fewer resources which provide helpful guidance about how to manage the early stages of an assignment The quality of a student s written work reflects the quality of their reading and note making skills If students don t understand what their assignment is asking if students don t take control of their reading list and consult the most appropriate sources and if students don t end the process of reading with meaningful notes it s very unlikely that they will score high marks for their assignment This book helps readers to take charge of their reading at university and provides succinct and practical guidance at key stages of the assignment It helps students to understand what their assignment title means and how to identify useful reliable academic sources It helps students to apply different reading strategies depending on the task at hand and to approach texts actively so that they are questioning and evaluating materials as they go In addition to reading strategies the Pocket introduces readers to useful strategies and tips for note making The final part helps readers to make the most of their notes by engaging with and reviewing the material they ve created New for this edition A science based example for STEM students New section which helps readers think about what type of information and evidence they need to find New tips on managing large volumes of reading Updated material on note making software and online tools to reflect latest technology
