Pringle, Master Decoy Maker** William C. Reeve, 2002-09-12 An avid outdoorsman Pringle began carving decoys in 1898 and in 1928 set himself the goal of producing the best rig of decoys in the world Between 1929 and 1946 employing his skills as a commercial artist and going to great lengths to ensure the utmost accuracy he fashioned approximately 120 of what many now consider to be among the finest examples of decoy art But because he carved exclusively for his own use and made only a few for close friends Pringle's birds remained largely unknown until recently **With Wings Extended** Greg Hoch, 2020-05-01 A century ago many people had given up on the wood duck dooming it to extinction along with the passenger pigeon and Carolina parakeet Today it's one of the most familiar and most harvested ducks in the eastern half of the country and one of America's great conservation success stories In *With Wings Extended* Minnesota conservationist Greg Hoch introduces readers to a duck they probably recognize but may not know well This book shows how almost anyone can get involved in conservation and do something for wildlife beyond writing checks to conservation organizations Hoch illustrates the complexities of wildlife and habitat management that landowners as well as state and federal wildlife agencies deal with on a daily basis and takes readers through the life stages of what is largely considered the most beautiful duck in the world In this fascinating and practical read Hoch blends the historical literature about the species with modern science and also shows how our views of conservation have changed over the last century *Ducks Unlimited*, 2001 **Field & Stream**, 1985-12 FIELD STREAM America's largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations *The Wood Duck and the Mandarin* Lawton L. Shurtleff, Christopher Savage, 1996-11-11 This is a story of conservation told through the natural histories of two of the world's most fascinating birds the Wood Duck of North America and the Mandarin of Asia The only two species in their genus Aix these Northern Wood Ducks are native to different continents but have long been kept together in captivity Now for the first time in history they are also flying side by side in the wild in a small area of northern California This rare circumstance has given Lawton L Shurtleff and Christopher Savage the opportunity to observe the Northern Wood Ducks close relationship and is the starting point of this informative and beautifully rendered book The opening chapters tell how the Wood Duck and the Mandarin came to inhabit the Pacific

Flyway and explain their extraordinary similarities Subsequent chapters discuss the distinctive histories of the two species and describe the birds throughout the seasons in their native flyways The Mandarins place in Asian art and literature is the subject of Chapter Five The final chapter illuminates the successful work done to protect the North American Wood Duck which has made a remarkable recovery from near extinction and the beginning efforts to protect the Mandarin whose existence in East Asia is seriously threatened Stunning full color photographs by renowned wildlife photographers along with photographs by the authors capture the exquisite beauty of these much revered birds Detailed maps show the Wood Ducks territory in North America and the Mandarins territory in East Asia and Great Britain Three appendices plans for building nestboxes instructions for banding birds and lists of books and conservation organizations and a thorough index are valuable resources in a book that will delight bird lovers and general readers alike
