Handbook on Responsible Leadership and Governance in Global Business Jonathan P. Doh, Stephen A. Stumpf, 2005

Reading these various non technical articles is undeniably valuable for any person: teachers, executives, students who is concerned about the behaviour of major companies, managers in the context of globalisation and economy liberalisation. *Gestion* 2000 A profoundly important book for scholars and leaders alike that makes a vital, timely contribution to the behavioral perspectives on leadership and governance. Doh and Stumpf, along with their world renowned contributors, apply solidly anchored academic wisdom to offer fresh ideas on restoring faith in the integrity of American enterprise. Jeffrey Sonnenfeld, Yale School of Management President and CEO, Chief Executive, Leadership Institute and author of *Leadership and Governance From The Inside Out*. Ethics, social responsibility, leadership, governance. These terms are heard in the classroom, in the boardroom and viewed on the front page of newspapers and magazines. Yet serious attention to the relationships among these concepts is lacking. Although commitments to leadership ethics and social responsibility are evident, individuals and companies are falling short in combining these duties into policies and cultures that guide behavior and decisions. The missing element is a broad based and integrated approach to responsible leadership and governance. This volume provides the leading thinking on these issues and includes a discussion of emerging areas that require future attention. The contributors, leading scholars in the fields of leadership, governance and social responsibility, summarize the state of the literature, identify complementary insights and perspectives, discuss areas of conflict and disagreement and include a provocative and stimulating agenda for further investigation. They point up practical consequences of these perspectives in light of developments that have exposed the shortcomings in practice. Several contributors focus specifically on the challenges faced by global companies in developing and maintaining leadership and governance practices that are responsive to different national, institutional and cultural settings. Thorough coverage and insightful discussion make this an
