Sociolinguistic Change Jannis Androutsopoulos, 2014-09-04 This is the first volume to focus on the role of media in processes of linguistic change, one of the most contested issues in contemporary sociolinguistics. Its 17 chapters and five section commentaries present cutting-edge research from variationist and interactional sociolinguistics, media linguistics, language ideology research and minority language studies. The volume advances our understanding of linguistic change in a mediatized world in three ways. First, it introduces the notions of sociolinguistic change and mediatization to create a broader theoretical framing than the one offered by the media and language change. Second, it takes the discussion beyond the notions of

influence and effect and the binary distinction of media vs community language Third it examines the relation of sociolinguistic change and mediatization and from five complementary viewpoints media influence on linguistic structure media engagement in interaction change in mass and new media language language ideological change and the role of media for minority languages Bringing these strands of sociolinguistic scholarship together this volume examines their shared references and common lines of thinking

Intellectual Manhood Timothy J. Williams,2015-03-09 In this in depth and detailed history Timothy J Williams reveals that antebellum southern higher education did more than train future secessionists and proslavery ideologues It also fostered a growing world of intellectualism flexible enough to marry the era s middle class value system to the honor bound worldview of the southern gentry By focusing on the students perspective and drawing from a rich trove of their letters diaries essays speeches and memoirs Williams narrates the under examined story of education and manhood at the University of North Carolina the nation s first public university Every aspect of student life is considered from the formal classroom and the vibrant curriculum of private literary societies to students personal relationships with each other their families young women and college slaves In each of these areas Williams sheds new light on the cultural and intellectual history of young southern men and in the process dispels commonly held misunderstandings of southern history Williams s fresh perspective reveals that students of this era produced a distinctly southern form of intellectual masculinity and maturity that laid the foundation for the formulation of the post Civil War South

explores one of the most richly detailed stories of a woman of late antiquity Melania an early fifth century Roman Christian aristocrat renounced her staggering wealth to lead a life of ascetic renunciation Her life spans many crucial events in the history of the later Roman Empire **The North British Review** ,1855 *An Introduction to the Critical Study and Knowledge of the Holy Scriptures ... Third Edition, Corrected, Etc* Thomas Hartwell HORNE,1822 University of Michigan Official Publication ,1941 **Learner-Centred Education for Adult Migrants in Europe** ,2021-04-12 Learner Centred Education for Adult Migrants in Europe A Critical Comparative Analysis contributes to the field of Adult Education by investigating the ways in which Learner Centred Education LCE is being enacted implemented or neglected in specific settings The book addresses the lack of research on how LCE is used in adult education as a tool for social change across different national contexts This comparative approach is crucial for exploring the complex global regional national and local dynamics that account for varying implementations or non implementations of LCE in different settings for appreciating the thin or wide differences in practices of implementation and for assessing the successes failures and needs for improvement of diverse LCE programmes The book s primary focus on migration as a social process and migrants as active citizens is useful in unravelling the convergences and divergences of different national and urban settings where migrant adult learners live as citizens or as non citizens and how this intersects with their experiences as learners This research is contextualised in a larger political context What emerges from the parting reflection is a European scenario marked by ambivalent and contradictory relations with migrants and an educational intervention that is located somewhere between the assimilationist integrationist dialectic The four cases presented Estonia Malta Scotland and Cyprus generally respond to the learners needs on the ground while rarely problematising the ideological stance of the state in relation to the educational plight of migrants The final chapter introduces and elaborates on a new concept Emancipatory LCE to help generate a deeper analysis
