Michael Hirsh,2010-03-16 At last the everyday fighting men who were the first Americans to know the full and horrifying truth about the Holocaust share their astonishing stories Rich with powerful never before published details from the author s interviews with more than 150 U S soldiers who liberated the Nazi death camps *The Liberators* is an essential addition to the literature of World War II and a stirring testament to Allied courage in the face of inconceivable atrocities Taking us from the beginnings of the liberators final march across Germany to V E Day and beyond Michael Hirsh allows us to walk in their footsteps experiencing the journey as they themselves experienced it But this book is more than just an in depth account of the liberation It reveals how profoundly these young men were affected by what they saw the unbelievable horror and pathos they felt upon seeing stacks of bodies like cordwood and skeletonlike survivors in camp after camp That life altering experience has stayed with them to this very day It s been well over half a century since the end of World War II and they still haven t forgotten what the camps looked like how they smelled what the inmates looked like and how it made them feel Many of the liberators suffer from what s now called post traumatic stress disorder and still experience Holocaust related nightmares Here we meet the brave souls who now in their eighties and nineties have chosen at last to share their stories Corporal Forrest Robinson saw masses of dead bodies at Nordhausen and was so horrified that he lost his memory for the next two weeks Melvin Waters a 4 F volunteer civilian ambulance driver recalls that a woman at Bergen Belsen fought us like a cat because she thought we were taking her to the crematory Private Don Timmer used his high school German to interpret

for General Dwight Eisenhower during the supreme Allied commander's visit to Ohrdruf the first camp liberated by the Americans And Phyllis Lamont Law an army nurse at Mauthausen Gusen recalls the shock and ultimately the hope that you can save a few From Bergen Belsen in northern Germany to Mauthausen in Austria The Liberators offers readers an intense and unforgettable look at the Nazi death machine through the eyes of the men and women who were our country's witnesses to the Holocaust The liberators recollections are historically important vivid riveting heartbreaking and on rare occasions joyous and uplifting This book is their opportunity perhaps for the last time to tell the world [Catalog of Copyright Entries, Third Series](#) ,1953 The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc **Exploring World History through Geography** Julie Crea Dunbar,2022-09-29 Not your run of the mill world history tome this book takes readers on a fascinating journey through time to examine world history through the closely related discipline of geography From the early civilizations of ancient Mesopotamia to our present day globalized society readers will learn how humans interacted and still interact with the environment around them as well as the environment's role in not only shaping the society's world view but enabling the building of socially stratified and successful civilizations Additionally the book examines how civilizations interacted with others from developing cross boundary trade to initiating wars of expansion Finally readers will also understand the impact of the study and application of geography such as the creation and use of maps and the study of cultures and Earth's processes Readers will come away with a new understanding of the relevance of geography to not only human history but contemporary events as well as their day to day lives By presenting this history from a slightly different geographic point of view this book will inspire fresh curiosity in the world both past and present
