Mechanization is ranked among the top 10 in a list of 20 Top Engineering Achievements of the last century that have had the greatest impact on the quality of life. While many success stories abound, the problems of low appeal among students, identity crises, and limited job opportunities in many climes continue to trouble the discipline's future in many parts of the world. Yet agriculture and agricultural engineering remain fundamental to assuring food and nutrition security for a growing global population. *Agricultural Biosystems and Biological Engineering Education* provides the first comprehensive global review and synthesis of different agricultural biosystems and biological engineering education approaches, including a detailed exposition of current practices from different regions. **Key Features:** Describes novel approaches to curriculum design and reform; Outlines current and emerging epistemology and pedagogies in ABBE education; Provides a framework to grow agricultural engineering in Africa and other developing regions; Highlights the role of ABBE education in the context of the SDGs. Presented in 3 parts and containing 42 chapters, this book covers the historical evolution of agricultural engineering education and discusses the emergence of biological and biosystems engineering education. It will appeal to engineers and other professionals, education planners and administrators, and policy makers in agriculture and other biological industries. Congress. House. Committee on Science, Space, and Technology. Subcommittee on Science, 1992. This document presents the transcript of a congressional hearing to consider the American Math and Science Student Support Act H.R. 4595. The legislation is designed to address the issue of attracting a greater proportion of U.S. citizens to graduate study in science, mathematics, and engineering. The hearings include testimony and prepared statements from witnesses who have been asked to comment on the possible effects of the bill on increasing the participation of U.S. citizens in such graduate study. Witnesses include Dr. Jules LaPides, President, Council of Graduate Schools, representing the Association of American Universities, Washington, D.C.; Dr. Frank Morris, Dean of Graduate Studies, Morgan State University, Baltimore, Maryland; and President, Council of Historically Black Graduate Schools, Dr. William Powers, Provost, Michigan Technological University, Houghton, Michigan; Dr. Stanford Penner, Professor of Applied Mechanics and Engineering Sciences, University of California, San Diego, California; and Chairman of the National Academy of Sciences, Committee on the International Exchange and Movement of Engineers. Appendices include Dr. Morris' address to the plenary session of the Council of Graduate Schools on Dec. 5, 1991; a letter from J. P. Densler to P. Henry; a statement from NAFSA, Association of International Educators; and a statement from the
