

Water is a scarce resource in South Africa. The graph below shows how the volume of water in a toilet cistern has been reduced over the years. The picture next to the graph shows a toilet pan with a toilet cistern.

NOTE: 1 gallon = 3,785 litres

Use the information above to answer the questions that follow.

- 3.2.1 Calculate (in litres) the volume of water used during February 2022 by a family of five, if each person flushed the toilet an average FOUR times a day during the month. (3)
- 3.2.2 State ONE way in which a person can save water in this context. (2)

Research for Educational Change Jill Adler, Anna Sfard, 2016-06-17 Research for Educational Change presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research

An Introduction to the Study of Education David Matheson, 2014-09-15 This fully updated fourth edition of An Introduction to the Study of Education provides a comprehensive and reflective introduction to the study of education inviting students to question what education is who it is for and what purpose it serves Taking the reader from the early years through to lifelong learning it examines all forms of education and learning This new edition includes ten completely new chapters and a step by step guide to essay writing There is also a companion website to accompany the book featuring additional chapters which can be visited at www.routledge.com/cw/matheson This fully updated fourth edition provides a full exploration of the historical sociological philosophical and psychological roots of education a clear focus on the individual levels of education preschool compulsory post compulsory and lifelong learning the latest debates within special educational needs an in depth examination of learning styles insights into the historical development of education and the role of and background to research in education a focus on current educational practice and diversity across the United Kingdom and Ireland Written in a clear and accessible style this is the essential core text for all beginning students on undergraduate and postgraduate courses in Education Studies and all those interested in education today where it came from and where it is going

Teacher Education in Professional Learning Communities Xuefeng Huang, 2018-06-20 This book explores the unique experiences of a sister school network in Canada and China contextualized through the lens of the Reciprocal Learning Project which supports the relationship between a school network and teacher education exchange

program of two countries Huang uses theoretical viewpoints from teacher learning and comparative education research to analyse and interpret what has happened in the emerging cross cultural school network The book juxtaposes teacher learning and comparative education research from Shanghai and Ontario as teachers in the two places interact and provides detailed descriptions of teacher collaboration to show how these collaborations were initiated developed and sustained as well as the impact brought about from these collaborations The book offers a unique opportunity to examine how Canadian and Chinese teachers receive and react to opportunities of cross cultural collaboration and learning

Building a Positive Math Identity Liesl McConchie, 2025-09-01 When brain science meets math success Emotions drive learning This is an essential component of understanding how a student's math identity is closely connected to their math success How a student sees themselves in relation to math is dynamically constructed in their brain and is constantly changing Every learner deserves to exist in harmony with mathematics This book shows you how to make that mantra a reality for all students Liesl McConchie offers an exciting new perspective on math identity through her extensive research on how the brain learns Liesl walks readers through cognitive neuroscience in a humorous and friendly way using metaphors and everyday stories to explain how emotions and cognition interact She offers engaging and simple brain based strategies and activities to implement in the classroom In *Building a Positive Math Identity A Brain Science Approach* Liesl Translates complex brain science principles for educators in an accessible and engaging way Provides practical exercises and lessons that you can use in classroom right away Shares real world stories that provide deeper insight into how math identity is shaped over the years Offers activities to help teachers gain insight into the math identities of our students Guides teachers to explore our own math identity and the impact it can have on our students Most important the book pushes back on the prevailing message about math identity that tends to focus on student efficacy alone This approach puts the burden on the individual which can lead to additional oppression of those who have been most marginalized in math Here's our opportunity as educators to reexamine what it means to have a positive math identity and to learn to use brain based tools to build on a positive math identity for our students from the earliest ages

The Armed Forces Covenant in action? Great Britain: Parliament: House of Commons: Defence Committee,2013-07-18 A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good This was an improvement over the last inspection in 2009 rated as satisfactory now called requires improvement Some 28 per cent of Army recruits were less than 18 years of age Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency Of those recruited in 2012 3 5 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces Whilst the Committee recognises that some recruits may not be eager to take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country
