Math Facing An American Phobia:

Math Marilyn Burns,1998 Humorously Uncovers the Reasons Behind Math s Dreadful Reputation and Shows us How we Can Help Prevent Our Own Children From Adopting Similar Phobic Attitudes *Maths Anxiety* Heidi Kirkland,Thomas Hunt,2024-12-10 Maths Anxiety is a very common experience reported by people around the world This book will help all teachers of Maths from primary education to secondary and beyond to better understand Maths Anxiety and learn how we can address this within our classrooms creating a more positive learning environment for all Supported by research case studies and anecdotes this highly practical book explores and provides answers to the following questions What is Maths Anxiety Who experiences it Can I measure it What is involved in Maths Anxiety Who and what can influence it What can we do to provide support Can teachers experience Maths Anxiety too An essential resource for anybody teaching or supporting the learning of Maths this book provides tried and tested interventions to apply within the classroom alongside strategies to use at school or at home to manage and alleviate student experiences of Maths Anxiety **ENC Focus** ,2001 **Family Involvement in Education** ,1998 **Getting Your Math Message Out to Parents** Nancy Litton,1998 Tackle the tricky issue of bridging the communication gap between teachers students and their parents This unique resource explore the various channels newsletters back to school night presentations homework and more through which teachers can communicate with parents about their children s math education **Math Wars** Carmen Latterell,2004-12-30 This book is written for parents and other interested parties so that they can understand the great debate taking place in many states in this country about how to teach basic math The debate centers around the standards written by the National Council of Teachers of Mathematics NCTM which call for a radically different approach to mathematics education Because the issues are so heated between the NCTM oriented curricula and traditional curricula the curricula that NCTM oriented replaced the term Math Wars was coined to describe them Parents are concerned about their children s math learning Teachers are concerned about math teaching When parents see what children are bringing home under the new curriculum it is clear that their children are not working on the same mathematics that parents remember from the time when they were in school But the problem goes beyond grades K 12 Post secondary mathematics courses are the fear of many students The standards created by the NCTM do not necessarily prepare students for success either on SATs or in college Besides lack of knowledge about mathematics education many parents have an additional problem in that they feel they lack knowledge in mathematics itself This is very intimidating thus it is difficult for parents to do anything about the confusing state of mathematics education This book provides some answers Anxiety in Schools Jerrell C. Cassady,2010 Anxiety in Schools presents current theory and research addressing both context and content specific contributions to anxieties experienced in schools The concept of academic anxiety is a new construct formed through the content within this book and is proposed as a unifying representation for various forms of specialized manifestations of anxiety in school settings With contributions from

leaders in their respective fields of academic anxieties the book provides detailed and thorough explorations of the varied and specific orientations toward anxieties in school settings Explicit attention is given to the broader construct of academic anxiety and the contextual influences that can be brought to overcome or mitigate the impact of the many academic anxieties encountered by learners

Winning the Math Homework

Challenge Catheryne Draper, 2016-12-21 If you've ever been stumped by your child's math homework this is the book for you. Winning the Math Homework Challenge shares students' reasoning, thinking, and even misunderstandings about mathematics to provide you with the opportunity to see math through their eyes, including both the clarity and the confusion. Armed with this new sight and therefore insight, parents will be able to effectively communicate with their child about math experiences. This book focuses more on the 'why' behind math relationships, explained in plain English and through images that show mathematical relationships. The ability to recognize connections among math topics significantly reduces the confusion and frustration that can accompany math homework. By including more images and fewer formulas, readers, especially the visual/spatial learners, are better equipped to understand how math concepts connect to each other. Finding and understanding these connections will allow parents to find their own math 'mojo' and to pass on that legacy to their child.

Handbook of Family Literacy Barbara H. Wasik, 2012-08-06 The Handbook of Family Literacy 2e provides the most comprehensive up-to-date coverage of family literacy of any available book. It documents the need for literacy education for children and parents, describes early literacy and math development within the home, analyses interventions in home and center settings, and examines the issues faced by fathers and women with low literacy skills. Cultural issues are examined, especially those for Hispanic, African American, American Indian, Alaskan Native, and migrant populations. Noted experts throughout the United States, Canada, England, the Netherlands, Germany, New Zealand, and South Africa analyze the commonalities and differences of family literacy across cultures and families. Key features include the following:
Comprehensive: Provides updated information on the relation between early childhood literacy development, parenting, education, and intervention services.
Research Focus: Provides an extensive review of experimental studies, including national reviews and meta-analyses on family literacy.
Practice Focus: Provides a comprehensive treatment of family literacy interventions necessary for program developers, policy makers, and researchers.
Diversity Focus: Provides detailed information on cultural and diversity issues for guiding interventions, policy, and research.
International Focus: Provides an international perspective on family literacy services that informs program developers, researchers, and policy makers across countries.
Evaluation Focus: Provides detailed guidelines for ensuring program quality and fidelity and a valuable new evaluation perspective based on implementation science. This book is essential reading for anyone: researchers, program developers, students, practitioners, and policy makers who need to be knowledgeable about intervention issues, family needs, program developments, and research outcomes in family literacy.

Making a Difference: Volume I and II Sasha A. Barab, Kenneth E. Hay, Nancy Butler Songer, Daniel T. Hickey, 2017-09-05

William Wordsworth 1770-1850 needs little introduction as the central figure in Romantic poetry and a crucial influence in the development of poetry generally. This broad-ranging survey redefines the variety of his writing by showing how it incorporates contemporary concepts of language, difference, and the

ways in which popular and serious literature were compared and distinguished during this period It discusses many of Wordsworth's later poems comparing his work with that of his regional contemporaries as well as major writers such as Scott The key theme of relationship both between characters within poems and between poet and reader is explored through Wordsworth's construction of community and his use of power relationships A serious discussion of the place of sexual feeling in his writing is also included
