

CURREN'S MATH *for* MEDS

DOSAGES & SOLUTIONS
ELEVENTH EDITION

Anna M. Curren, RN, MA • Margaret H. Witt, BSN, MPT, DPT

Now in its eleventh edition, *Curren's Math for Meds: Dosages & Solutions* is the preeminent authority on drug dosage calculations, ratio and proportion, and medication safety. Often considered yet never equaled, the book delivers proven material with a nonbureaucratic approach that keeps students from basic to complex using a building block approach. Coverage begins with chapter 1 designed to review the useful basic math principles. Common drug measures are introduced next, followed by chapters on common medication labels and dosage calculations, instructions on body weight and body surface area, and chapters on intravenous calculations and pediatric medication calculations. This new edition of *Curren's Math for Meds* features full-color photos of drug labels and syringes as well as hundreds of examples of calculations, including unit conversions, and even includes online interactive software for developing learners into self-learners. *Curren's Math for Meds* is the only course with help from the master, Anna Curren, and *Curren's Math for Meds: Dosages & Solutions* is the only calculations text to reach more than 2 million learners!

Features

- **Clear, Concise Content:** Easy to understand and use, this text provides material, along with the consistent layout you expect, to help make this book a part of your success.
- **Best-Selling Dosages:** A systematic approach to dosages, from basic calculations and topics, gradually building upon them to introduce and explore complex dosages.
- **Unequaled Practice:** Running answers to in-book exercises give you immediate feedback, while the companion online interactive software provides extra examples and problems, helpful tutorials, and interactive self-tests designed to help you excel at dosage calculations.
- **Clinical Applications:** Photos of full-size medication labels and syringes, actual medical records, and examples expressed in multiple systems of measurement (metric, unit, and mg) build confidence and add depth to your growing expertise.
- **Specialized Calculations:** Advanced calculations for IV, hepatic, critical care, and pediatric dosages, in addition to the most common dosage calculations, prepare you for success in any health care setting.
