

**Chapter 1 – Place Value of Whole Numbers – 13 days (Sept. 8 – Sept. 28)**

**Chapter 2 – Estimation and Number Theory – 14 days (Sept. 29 - Oct. 16)**

**Chapter 3 – Whole Number Multiplication and Division – 30 days (Oct. 19 – Dec. 3)**

\*If needed, revisit Chapters 7, 8, and 9 from Grade 3 for reinforcement

**Skip Chapter 5 – Data and Probability**

**Chapter 14 (Gr. 3) Review – Fractions – 4 days (Dec. 4 – Dec. 9)**

**Chapter 6 – Fractions and Mixed Numbers – 24 days (Dec. 10 – Jan. 21)**

\*Emphasize Lessons 6.0, 6.7a, and 6.8a

\* Infuse dot plots with fractional measurements

**Mid-Year Test (Allow 1 day – Jan. 22); eliminate questions not taught**

**Chapter 7 – Decimals – 14 days (Jan. 25 – Feb. 11)**

**Skip Lesson 7.4 – Rounding Decimals**

**Skip Chapter 8 – Adding and Subtracting Decimals**

**Chapter 9 – Angles – 13 days (Feb. 17 – Mar. 4)**

**Chapter 10 – Perpendicular and Parallel Line Segments – 10 days (Mar. 7 – Mar. 18)**

\*Introduce line symmetry (4.G.3) in this unit (include activities from lesson 13.1)

Chapters 1-3 are the most critical units and will take the most time.

Chapter 6 is also a major topic of the grade level. +/- with unlike denominators is not required in the CCSS, so emphasis should be placed on mixed numbers and the meaning of operations. Include fractions on a line plot.

**Challenges of Conflicting School Reforms** Mark Berends, JoAn Chun, Gina Schuyler Ikemoto, Sue Stockly, R. J. Briggs, 2002-03-29 A decade ago New American Schools NAS launched an ambitious effort for whole school reform to address the perceived lagging achievement of American students and the lackluster school reform attempts that have produced so few meaningful changes. As a private nonprofit organization NAS set out to help schools and districts significantly raise the achievement of large numbers of students by offering whole school designs and design based assistance during the implementation process. NAS is currently in the scale up phase of its effort and its designs are being widely diffused to schools across the nation. During the 1997\_1998 and 1998\_1999 school years RAND assessed the effects of NAS designs on classroom practice and student achievement in a sample of schools in a high poverty district. RAND found that high poverty schools often have fragmented and conflicting environments with difficult and changing political currents and entrenched unions. Teachers in high poverty schools tend to face new accountability systems and fluctuating reform agendas. These teachers generally lack sufficient time for implementing reform efforts often becoming demoralized and losing their enthusiasm for the difficult task of improving student performance under difficult conditions. RAND concluded that high stakes tests may motivate schools to increase performance and to seek out new curricula and instructional strategies associated with comprehensive school reforms. However those same tests may provide disincentives to adopt richer more in depth curricula that can succeed in improving the learning opportunities of all students particularly those in high poverty settings.

*Applied Learning in Higher Education:* Sok Mui Lim, Yong Lim Foo, Han Tong Loh, Xudong Deng, 2020 Today all institutions of higher education almost everywhere in the world have been influenced by the concept of globalisation. The resulting policy changes in each nation state have of course reflected the degree of the impact of globalisation on the country hence the changes in higher education. Banya 2005 p 147 This points to globalisation shaping knowledge production as well as the spread of intentional and continuous waves of innovation. The effects of globalisation on education can be seen through a the changing paradigm from a closed system to a more open system and b the changing approach from a teacher centred learning environment to that of a learner centred environment. This changing approach culminates in the broader ideas of applied learning through a a productive view of learning versus reproductive view of learning b constructivist versus behaviourist c learning facilitation versus teaching and d process based assessment versus outcome based assessment. **Growing Mathematical Minds** Jennifer S. McCray, Jie-Qi Chen, Janet Eisenband Sorkin, 2018-09-03 Growing Mathematical Minds is the documentation of an innovative bi directional process of connecting research and practice in early childhood mathematics. The book translates research on early mathematics from developmental psychology into terms that are meaningful to teachers and readily applicable in early childhood classrooms. It documents teacher responses and conveys their thoughts and questions back to representative researchers who reply in turn. In so doing this highly useful book creates

a conversation in which researchers and teachers each bring their expertise to bear their communication about these topics informed by the thinking commitment and experience of both groups helps us better understand how developmental psychology can improve math teaching and how math teaching can in turn inform developmental science The book bridges the gap between research and practice helping teachers to adopt evidence based practices and apply cutting edge research findings and prompting developmental researchers to consider their work within the framework of practice Growing Mathematical Minds identifies and elucidates research with profound implications for teaching children from three to eight years so they develop foundational math knowledge and skills positive attitudes toward math and basic abilities to think mathematically

**Teacher Agency in the Process of State Mandated Reform** Kyle C. Ruggles, 2009 Under No Child Left Behind NCLB federally funded schools and Local Educational Agencies LEAs that do not meet Adequate Yearly Progress AYP criteria for two consecutive years are designated Program Improvement PI mandating participation in school reform interventions In February 2008 the California Department of Education CDE released a corrective action plan mandate requiring all LEAs or school districts in Year 3 of PI to participate in intensive moderate light or other levels of technical support that includes participation in the District Assistance and Intervention Team DAIT process The DAIT process brings outside consultants and district office administrators into schools and classrooms for regular walkthroughs and assessments of improvement plan implementation Yet little is known about how these state mandates influence teachers instructional practices and decision making power or agency This study explores teachers perceptions of the DAIT process and how agency is influenced in an urban fringe pre kindergarten through grade 8 PI school district in California that volunteered to pilot the DAIT process during the 2006 2009 school years The socio cultural theory of learning Gallucci 2003 and the principal agent theory Ferris 1992 guide the analysis of this embedded and longitudinal multi case study of three middle schools and the district office within the PI school district Rich thick qualitative descriptions from 24 teachers and five district office administrators engaged in state mandated reform emerge from the single case and cross case analyses Teachers perceive the DAIT feedback as vague and lacking in teacher involvement in classroom visitations which led to teachers viewing the process as superficial Yet teachers also considered the DAIT process as beneficial in increasing teacher team reflection and collaboration around a singular common instructional focus of reading comprehension which seemed to be positively associated with agency A variance of teacher agency levels was found to depend upon school context and how teachers perceived themselves while balancing the costs and benefits from DAIT feedback Findings also reveal that the DAIT process may have compromised teacher agency due to the lack of teacher participation and involvement in the development of the process potentially eroding teachers sense of professionalism

*Classroom Literacy Assessment* Jeanne R. Paratore, Rachel L. McCormack, 2007-04-05 Showcasing assessment practices that can help teachers plan effective instruction this book addresses the real world complexities of teaching literacy in grades K 8 Leading contributors present

trustworthy approaches that examine learning processes as well as learning products that yield information on how the learning environment can be improved and that are conducted in the context of authentic reading and writing activities The volume provides workable nuts and bolts ideas for incorporating assessment into instruction in all major literacy domains and with diverse learners including students in high poverty schools and those with special learning needs It is illustrated throughout with helpful concrete examples

**Over-Tested and Under-Prepared** Bob Sornson, 2022-11-23 Pressured by standardized testing and rigid pacing guidelines many schools are forced to cover too much content too quickly without being able to meet the needs of individual students In this powerful book from acclaimed author and presenter Bob Sornson you ll learn how shifting from curriculum based instruction to competency based personalized learning can help students become more successful confident and engaged learners Each chapter is easy to digest and provides compelling research strategies and anecdotes to inspire conversation and action This second edition provides updated statistics and examples of schools successfully using competency based learning models to help you bring about meaningful change Teachers administrators and community leaders will all find practical resources and a clear rationale for transforming our current educational system into a new dynamic model of teaching and learning

**Teaching to the Math Common Core State Standards** F. D. Rivera, 2014-02-05 This is a methods book for elementary majors and preservice beginning elementary teachers It takes a very practical approach to learning to teach elementary school mathematics in an emerging Age of the Common Core State Standards The Common Core State Standards in Mathematics CCSSM is not meant to be the official mathematics curriculum it was purposefully developed primarily to provide clear learning expectations of mathematics content that are appropriate at every grade level and to help prepare all students to be ready for college and the workplace A quick glance at the Table of Contents in this book indicates a serious engagement with the recommended mathematics underlying the kindergarten through grade 5 portions of the CCSSM first with issues in content practice assessment learning teaching and classroom management pursued next and in that order In this book we explore what it means to teach to the CCSSM within an alignment mindset involving content practice learning teaching and assessment The CCSSM content standards which pertain to mathematical knowledge skills and applications have been carefully crafted so that they are teachable learnable coherent fewer clearer and higher The practice standards which refer to institutionally valued mathematical actions processes and habits have been conceptualized in ways that will hopefully encourage all elementary students to engage with the content standards more deeply than merely acquiring mathematical knowledge by rote and imitation Thus in the CCSSM proficiency in content alone is not sufficient and so does practice without content which is limited Content and practice are both equally important and thus must come together in teaching learning and assessment in order to support authentic mathematical understanding This blended multisourced text is a getting smart book It helps elementary majors and preservice beginning elementary teachers work within the realities of accountable pedagogy and develop a proactive disposition that is capable of

supporting all elementary students in order for them to experience growth in mathematical understanding necessary for middle school and beyond including future careers      **Homeschooling Black Children in the U.S.** Khadijah

Ali-Coleman, Cheryl Fields-Smith, 2022-01-01 In 2021 the United States Census Bureau reported that in 2020 during the rise of the global health pandemic COVID 19 homeschooling among Black families increased five fold However Black families had begun choosing to homeschool even before COVID 19 led to school closures and disrupted traditional school spaces Homeschooling Black Children in the US Theory Practice and Popular Culture offers an insightful look at the growing practice of homeschooling by Black families through this timely collection of articles by education practitioners researchers homeschooling parents and homeschooled children Homeschooling Black Children in the US Theory Practice and Popular Culture honestly presents how systemic racism and other factors influence the decision of Black families to homeschool In addition the book chapters illustrate in different ways how self determination manifests within the homeschooling practice Researchers Khadijah Ali Coleman and Cheryl Fields Smith have edited a compilation of work that explores the varied experiences of parents homeschooling Black children before during and after COVID 19 From veteran homeschooling parents sharing their practice to researchers reporting their data collected pre COVID this anthology of work presents an overview that gives substantive insight into what the practice of homeschooling looks like for many Black families in the United States
