A Dictionary of Quotations

I make it two-
What do you make it?

I haven't finished
dividing yet...!

Can you do division? Divide a loaf by a knife—what's the answer to that?

Using the Mathematics Literature Kristine K. Fowler, 2004-05-25 This reference serves as a reader friendly guide to every basic tool and skill required in the mathematical library and helps mathematicians find resources in any format in the mathematics literature It lists a wide range of standard texts journals review articles newsgroups and Internet and database tools for every major subfield in mathemati *Of Essence and Context* Rūta Stanevičiūtė, Nick Zangwill, Rima Povilionienė, 2019-06-01 This book provides a new approach to the intersections between music and philosophy It features articles that rethink the concepts of musical work and performance from ontological and epistemological perspectives and discuss issues of performing practices that involve the performer s and listener s perceptions In philosophy the notion of essence has enjoyed a renaissance However in the humanities in general it is still viewed with suspicion This collection

examines the ideas of essence and context as they apply to music A common concern when thinking of music in terms of essence is the plurality of music There is also the worry that thinking in terms of essence might be an overly conservative way of imposing fixity on something that evolves Some contend that we must take into account the varying historical and cultural contexts of music and that the idea of an essence of music is therefore a fantasy This book puts forward an innovative approach that effectively addresses these concerns It shows that it is in fact possible to find commonalities among the many kinds of music The coverage combines philosophical and musicological approaches with bioethics biology linguistics communication theory phenomenology and cognitive science The respective chapters written by leading musicologists and philosophers reconsider the fundamental essentialist and contextualist approaches to music creation and experience in light of twenty first century paradigm shifts in music philosophy Scientifically Speaking C.C.
